#### 4 Advanced Functions

4.1	Using advanced functions	4-2
4.1.1	What are advanced functions?	4-2
4.1.2	Association with application	4-3
4.1.3	Registering the i-Option license Preparation flow	
	Enabling the i-Option function	
	Registering the i-Option license	
	Enabling the i-Option function using the license (Administrator)	4-7
	Configuring each function	4-8
4.2	Using the Web browser function	4-9
4.2.1	Required settings and procedures	4-9
	Preparation flow	
	Operation flow	
	Enabling the Web browser function	
	Registering the license	
	Enabling the Web browser using the license	
	Starting the Web browser	
	Displaying Web pages	
	Printing the currently displayed page or the linked file	
4.3	Using the voice guidance	4-21
4.3.1	Required settings and procedures	
	Preparation flow	4-21
	Operation flow	
	Enabling the voice guidance function	
	Assigning the voice guidance function to a Register key or to the slide menu	
	Specifying the volume and speed	
	Operating the voice guidance	
	Keypad operations for voice guidance	
	Voice guidance on the scan/fax screen	4-27

#### 5 Frequently Asked Questions

5.1	Print	5-2
5.1.1	Q1. Can I print data on an envelope or postcard? Operation procedure	
5.1.2	Q2. Can I print on custom size paper? Operation procedure	
5.1.3	Q3. Can I directly print a file in a USB memory device? Operation procedure	
5.1.4	Q4. Can printing be restricted by user? How to set	
5.1.5	Q5. What types are available for printing finish? Staple Punch Center Staple Fold Operation procedure	5-12 5-13 5-13 5-13
5.1.6	Q6. Can I print on very long sheets of paper such as a banner? How to set	
5.2	Scan	5-17
5.2.1	Q1. Can frequently used destinations be registered?	5-17
5.3	Fax	5-18
5.3.1	Q1. Can I check fax transmission and reception logs? Operation procedure	

5.3.2	Q2. Can I collectively send data to multiple destinations?	5-18
	Operation procedure: Selecting multiple addresses from the address book Operation procedure: Directly entering multiple destinations	5-18
5.3.3	Q3. Can I register multiple sender names displayed on the fax to use them depending on	
	purposes?	5-20
	How to set: Registering sender names	
	How to set: Selecting a sender name upon fax transmission	
5.3.4	Q4. Can I avoid expensive communication charges using the network?	
	Operation procedure: Sending an Internet fax	
	Operation procedure: Sending an IP address fax	
5.3.5	Q5. How can I avoid printing out unwanted faxes?	
	Operation procedure: Configuring to save received faxes in a User Box	
	How to set: Printing faxes saved in a User Box	5-24
5.3.6	Q6. Can I forward an incoming fax?	
	How to set	5-25
5.3.7	Q7. Can I directly fax a file on my computer without leaving my desk?	
	Operation procedure	5-27
5.4	Сору	5-28
5.4.1	Q1. Can I copy on an envelope or postcard?	5-28
	Operation procedure: Copying on envelopes	
	Operation procedure: Copying on postcards	5-30
5.4.2	Q2. Can I print on custom size paper?	
	Operation procedure: Copying on paper of a custom size	
	Operation procedure: Registering a custom size of paper in memory	
	Operation procedure: Recalling the custom size registered in memory	
5.4.3	Q3. Can I check the finish before starting copying?	5-35
	How to set: Checking the finish with a preview image	
	How to set: Checking the finish by outputting one copy	5-36
5.4.4	Q4. Can I easily copy various cards such as an insurance card or driver license card? Operation procedure	5-37 5-37
5.5	User Box	
5.5.1	Q1. Can I create a User Box, or print or download a file in a User Box from my computer?	
0.0.1	Operation procedure: Using Web Connection	
	Operation procedure: Using the Windows file sharing function	
5.6	Other	
5.6.1	Q1. Can more than one computer use the same settings for the printer driver ?	
5.0.1	Operation procedure : Preparing for an install package	
	Operation procedure: Creating on install package	5-41
	Operation procedure: Executing the install package	
5.6.2	Q2. Can I restrict available functions by user?	
5.0.2	How to set	
5.6.3	Q3. Can I change the keying and operation sounds of this machine?	
0.0.0	How to set	
5.6.4	Q4. User authentication seems to be enabled on this machine. How can I be authenticated a	and
0.0.1	allowed to operate this machine?	
	How to set: Getting authenticated as a user on this machine	
	How to set: Getting authenticated as a user on the printer driver	5-48
5.6.5	Q5. The power is input all day. Is there any way to alleviate concerns about electricity	
	charges?	5-49
	How to set	5-49
5.6.6	Q6. What action should be taken if the administrator password is lost?	5-51

#### 6 Troubleshooting

6.1	Main messages and remedies	6-2
6.1.1	When a message appears to replace consumables or carry out cleaning	6-2
6.1.2	When a paper jam message persists	6-3
6.1.3	When an error message appears	6-3
6.1.4	When [Stabilizing image.] appears	6-4

6.2	When printing quality has deteriorated	6-5
6.2.1	Cleaning the Print Head Glass	6-5
6.3	When the machine cannot be powered on	
6.4	When the Touch Panel is not visible	
6.5	When a message appears to replace consumables or carry out cleaning	
	When staples in the Finisher have run out	6-9
	When the punch scrap box is full	6-9
	When toner is running out in the Toner Cartridge	6-10
	When it is time to replace a Toner Cartridge	6-10
	When it is time to replace a Drum Unit	6-11
	When it is time to replace a Developing Unit	6-11
	When the Waste Toner Box is full	6-12
6.5.1	Replacing a Toner Cartridge	6-13
6.5.2	Replacing a Waste Toner Box	6-14
6.5.3	Replacing a Drum Unit	
6.5.4	Replacing a Staple Cartridge	6-16
	Finisher FS-537/Finisher FS-537 SD	
	Finisher FS-536/Finisher FS-536 SD	
	Finisher FS-533	6-18
6.5.5	Replacing a Saddle Staple Cartridge	6-19
	Finisher FS-537 SD	6-19
	Finisher FS-536 SD	6-20

#### 7 Index

# Introduction

#### Introduction

This [Quick Start Guide] uses illustrations to describe operating procedures for the most commonly used functions in an easy-to-understand way.

Start by using this manual to become proficient with the useful functions that this machine offers.

For details on the various functions, refer to the User's Guides on the User's Guide CD included with this machine.

In order to operate the machine safely and properly, be sure to read the safety information on page 1-4 of this manual before use.

In addition, this manual contains the following information. Be sure to read the manual before using the machine.

- Items that must be observed to use the machine safely
- Information regarding product safety
- Precautions when using the machine
- Descriptions on trademarks and copyrights

The illustrations and screens used in this manual may appear slightly different from views of the actual equipment and screens.

Please keep this manual as well as the attached CD/DVD in a safe place where you can access them easily.

#### **1.1 Environmental information**

#### **Environmental initiatives**

The company continuously strives to reduce the negative environmental impacts of all stages of its business operations.

As part of such activities, the company is implementing resource-saving steps by reducing the number of pages in the User's Guide.

For the information necessary to operate the machine, please refer to the bundled User's Guide CD (HTML format). This guide has an excellent search function.

Functions such as keyword search and filtering by purpose are very useful to help users find what they need to know.

#### ENERGY STAR®

As an ENERGY STAR<sup>®</sup> Partner, this machine meets the ENERGY STAR<sup>®</sup> Guidelines for energy efficiency.

Introduction

#### What is an ENERGY STAR<sup>®</sup> product?

An ENERGY STAR<sup>®</sup> product has a special feature that allows it to automatically switch to a "low-power mode" after a period of inactivity. An ENERGY STAR<sup>®</sup> product uses energy more efficiently, saves you money on utility bills and helps protect the environment.

#### Environmental benefits of power management

Electricity consumption of a device depends on both its properties and the way of using the device.

Suitable power management setting offers you resource saving usage way. By setting the time to go into power saving modes (e.g. sleep mode) shorter (or optimal), electricity consumption can be reduced.

#### **Recycled paper**

This product can print on recycled paper and environmental stewardship initiatives certified paper which complies with European standard EN 12281 as well as virgin paper. In addition it can print on lighter paper, 64g/m<sup>2</sup> for example. Using such light paper contributes to resources-saving.

#### **Duplex printing**

With a product which has a duplex unit, you can print on both sides of paper automatically.

Using this function leads to reducing consumption of natural resources and your cost.

Attached printer driver provides this duplex printing function as initial setting in your computer (The setting can be changed after installation manually).

#### 1.2 Safety information

This section contains detailed instructions on the operation and maintenance of this machine. To achieve optimum utility of this device, all operators should carefully read and follow the instructions in this manual.

Please read the following section before connecting the machine to the supply. It contains important information related to user safety and preventing equipment problems.

Make sure that you observe all of the precautions that appear in different sections of this manual.

KMI\_Ver.02\_E

Reference

• Some parts of the contents of this section may not correspond with the purchased product.

#### Warning and precaution symbols

Be sure to observe the safety precautions.

This manual contains the instructions that should be strictly observed at all times to prevent injury to yourself and other persons as well as damage to property.

Injuries and damage that might be caused by using the product improperly are classified according to the following symbols.

Pictorial indication	Description
	Improper handling can cause serious injury or death.
	Improper handling can cause minor injury or damage to houses and property.

#### These are some of major exemplary graphical symbols.

Graphic symbols	Descriptions	Graphic symbols	Descriptions	Graphic symbols	Descriptions
$\bigcirc$	General prohibi- tion		Do not disassem- ble		Do not touch
0	General instruc- tion	Ð	Ground/Earth	<b>8</b> =Ç;	Unplug from outlet
	General precau- tion		High temperature		Electrical shock hazard

Chapter 1

Descriptions	Graphic symbols
<ul> <li>Do not use any power cord other than the one supplied in the package or attached on the products. If a power cord is not supplied, use only the power cord and plug that are specified in the user documentation. Failure to use this cord could result in a fire or electrical shock. If the power cord supplied in the package cannot be used in the country where this product was sold, use a power cord that meets the following conditions or contact your Technical Representative.</li> <li>The power cord has voltage and current rating appropriate for the rating plate on this machine.</li> <li>The power cord meets regulatory requirements for the area.</li> <li>The power cord is provided with grounding pin/terminal.</li> </ul>	$\bigotimes$
Do not use the power cord to other products. Failure to do that could re- sult in a fire or electrical shock.	$\bigcirc$
Do not scratch, abrade, place a heavy object on, heat, twist, bend, step on, pull on, or damage the power cord. Use of a damaged power cord (exposed core wire, broken wire, etc.) could result in a fire or breakdown. Should any of these conditions be found, immediately turn OFF the pow- er switch, unplug the power cord from the power outlet, and then call your authorized service representative.	$\bigotimes$
Do not use the power source voltage other than being specified on the machine. Failure to do that could result in a fire or electrical shock.	$\bigotimes$
Do not use a multiple outlet adapter to connect any other appliances or machines. Use of a power outlet for more than the marked current value could result in a fire or electrical shock.	Contraction of the second seco
Do not use an extension cord. Use of an extension cord could cause a fire or electric shock. If the power cord furnished with the product is not long enough to be plugged into a wall outlet, contact your Technical Representative.	
Do not unplug and plug in the power cord with a wet hand, as an electri- cal shock could result.	
Plug the power cord all the way into the power outlet. Failure to do this could result in a fire or electrical shock.	0
Make sure to ground this product. (Connect the power cord to an electri- cal outlet that is equipped with a grounding terminal.) Failure to do so and an unlikely event of leakage could result in a fire or electrical shock.	Ð

Descriptions	Graphic symbols
The outlet must be near the equipment and easily accessible. Otherwise you can not pull out the power plug when an emergency occurs.	0
Do not place any objects around the power plug, as the power plug may be difficult to pull out when an emergency occurs.	$\otimes$
Do not tug the power cord when unplugging. Pulling on the power cord could damage the cord, resulting in a fire or electrical shock.	$\bigotimes$
Remove the power plug from the outlet more than one time a year and clean the area between the plug terminals. Dust that accumulates be- tween the plug terminals may cause a fire.	0

#### <Installation>

## 

Descriptions	Graphic symbols
Keep this bag away from babies and children. Do not use in cribs, beds, carriages, or playpens. The thin film may cling to nose and mouth and prevent breathing. This bag is not a toy.	
Do not place a flower vase or other container that contains water, or met- al clips or other small metallic objects on this product. Spilled water or metallic objects dropped inside the product could result in a fire, electri- cal shock, or breakdown. Should a piece of metal, water, or any other similar foreign matter get in- side the product, immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your Technical Repre- sentative or your authorized service representative.	
Make sure that the power cord is placed on a site in which no person would step on or trip over it. Stepping on or tripping over the power cord could heat the power cord, resulting in a fire or electric shock.	

ion Chapter 1

Descriptions	Graphic symbols
<if fixing="" instructed="" legs="" to="" use=""> When the product has been installed, fix the product using the fixing legs. Not using the fixing legs could cause the product to move or topple over.</if>	0
Do not place the product in a dusty place, or a site exposed to soot or steam, near a kitchen table, bath, or a humidifier. A fire, electrical shock, or breakdown could result.	$\bigcirc$
Do not place this product on an unstable or tilted bench, or in a location subject to a lot of vibration and shock. It could drop or fall, causing per- sonal injury or mechanical breakdown.	$\bigcirc$
Do not let any object plug the ventilation holes of this product. Heat could accumulate inside the product, resulting in a fire or malfunction.	$\bigcirc$
Whenever moving this product, be sure to disconnect the power cord and other cables. Failure to do this could damage the cord or cable, re- sulting in a fire, electrical shock, or breakdown.	8-5-
When moving this product, always hold it at the locations specified in the User's Guide or other documents. If the unit is moved while held at locations other than those specified, it may fall, causing severe personal injury.	0

#### <Using the product>

## 

Descriptions	Graphic symbols
Do not modify this product, as a fire, electrical shock, or breakdown could result. If the product employs a laser, the laser beam source could cause blindness.	
Do not attempt to remove the covers and panels which have been fixed to the product. Some products have a high-voltage part or a laser beam source inside that could cause an electrical shock or blindness.	
Do not keep using this product, if this product becomes inordinately hot or emits smoke, or unusual odor or noise. Immediately turn OFF the pow- er switch, unplug the power cord from the power outlet, and then call your Technical Representative or your authorized service representative. If you keep on using it as is, a fire or electrical shock could result.	
Do not keep using this product, if this product has been dropped or its cover damaged. Immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your Technical Repre- sentative or your authorized service representative. If you keep on using it as is, a fire or electrical shock could result.	

Do not use flammable sprays, liquids, or gases inside or near th chine. Do not clean the inside of this machine using a flammab duster. A fire or explosion could result.	
<if (limited="" 13.56="" an="" for="" in="" inside<br="" mhz)="" module="" only="" rfid="" to="" use="">chine proximity communication or electromagnetic induction he technology (limited only to 20.05 kHz to 100 kHz) is being used This machine generates a weak magnetic field. If you experience any unusual symptoms with your implantable equipment (cardiac pacemaker, etc.) while near the machine, mo from the machine and see a doctor immediately. Descriptions	Graphic symbols
Using this product in a poorly ventilated room for a long time or produc- ing a large volume of copies or prints may cause the odor of exhaust air from the machine. Ventilate the room well.	0
The inside of this product has areas subject to high temperature, which may cause burns. When checking the inside of the unit for malfunctions such as a paper misfeed, do not touch the locations (around the fusing unit, etc.) which are indicated by a "Caution HOT" caution label. A burn could result.	
Unplug the product when you will not use the product for long periods of time.	
When using the machine, do not look at the light of the lamp for a pro- longed time. Eyestrain could result.	$\bigcirc$
Do not use stapled paper, conductive paper (such as silver paper or car- bon paper) or treated heat-sensitive/inkjet paper, otherwise a fire may re- sult.	

<Consumables>

# Graphic symbols

## 

MARNING |

Descriptions	Graphic symbols
Do not leave toner-related parts (e.g., toner cartridge and developing unit) within easy reach of children. Licking any of these parts or ingesting toner could damage your health.	$\bigotimes$
Do not store toner-related parts (e.g., toner cartridge and developing unit) near devices susceptible to magnetism, such as precision equipment and data storage devices, otherwise they may malfunction. They could cause these products to malfunction.	$\bigcirc$
Do not force open the toner-related parts (e.g., toner cartridge and devel- oping unit). If toner tumbles from the toner bottle, take utmost care to avoid inhaling it or even getting skin contact.	$\bigcirc$
If toner lands on your skin or clothing, wash thoroughly with soap and wa- ter.	0
If you inhale toner, move to a place with fresh air and gargle with a lot of water repeatedly. Should you get symptoms such as coughing, seek medical advice.	0
If you get toner into your eyes, immediately rinse them with running water for over 15 minutes. Seek medical advice if irritation persists.	0
If you swallow toner, rinse out your mouth and drink a few glasses of wa- ter. Seek medical advice if necessary.	0
Never touch the electrical contacts of the units (e.g., toner cartridge and developing unit), as an electrostatic discharge may damage the product.	
Before handling, see the user documentation for the safety information.	Ĩ

Do not throw toner or a container that contains toner (e.g., toner cartridge and developing unit) into an open flame. The hot toner may scatter and cause burns or other damage.

#### Descriptions **Graphic symbols** If instructed to replace the fusing unit> The fusing section is extremely hot. Before replacing the fusing unit, be sure to open doors and covers of the machine. Then, leave the machine

to stand idle for a specified period of time and make sure that the fusing section has cooled down to room temperature. Failure to follow these in-

structions could result in a burn.

Introduction

#### 1.3 Regulation notices

#### CE Marking (Declaration of Conformity) for users of the European Union (EU)

Konica Minolta hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

In 2017 Directive 1999/5/EC will be replaced by Directive 2014/53/EU.

The latest version of the Declaration of Conformity is available at "http://www.konicaminolta.eu/".

## USER INSTRUCTIONS FCC PART 15 - RADIO FREQUENCY DEVICES (for U.S.A. users)

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

#### **WARNING**

- The design and production of this unit conform to FCC regulations, and any changes or modifications must be registered with the FCC and are subject to FCC control. Any changes made by the purchaser or user without first contacting the manufacturer will be subject to penalty under FCC regulations.
- This device must be used with a shielded interface cable. The use of non-shielded cables is likely to result in interference with radio communications and is prohibited under FCC rules.

## INTERFERENCE-CAUSING EQUIPMENT STANDARD (ICES-003 ISSUE 5) (for Canada users)

This Class A digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

#### For users in countries not subject to class B regulations

#### **∕**MARNING

- This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.
- This device must be used with a shielded interface cable. The use of non-shielded cables is likely to result in interference with radio communications and is prohibited under CISPR rules and local rules.

#### **GS** Certification

This device is not intended for use in the direct field of view at visual display workplaces. To avoid incommoding reflexions at visual display workplaces this device must not be placed in the direct field of view.

Das Gerät ist nicht für die Benutzung im unmittelbaren Gesichtsfeld am Bildschirmarbeitsplatz vorgesehen. Um störende Reflexionen am Bildschirmarbeitsplatz zu vermeiden, darf dieses Produkt nicht im unmittelbaren Gesichtsfeld platziert werden.

#### Laser safety

This is a digital machine which operates using a laser. There is no possibility of danger from the laser provided the machine is operated according to the instructions in the manuals.

Since radiation emitted by the laser is completely confined within protective housing, the laser beam cannot escape from the machine during any phase of user operation.

This machine is certified as a Class 1 laser product per IEC 60825-1: 2014: This means the machine does not produce hazardous laser radiation.

#### Internal laser radiation

Maximum Average Radiation Power: 13.1  $\mu W$  (bizhub 558) / 10.1  $\mu W$  (bizhub 458) at the laser aperture of the print head unit.

Wavelength: 775-800 nm (bizhub 558) / 770-800 nm (bizhub 458)

This product employs a Class 3B laser diode that emits an invisible laser beam.

The laser diode and the scanning polygon mirror are incorporated in the print head unit.

The print head unit is NOT A FIELD SERVICE ITEM:

Therefore, the print head unit should not be opened under any circumstances.

#### **CDRH** regulations

This machine is certified as a Class 1 Laser product under Radiation Performance Standard according to the Food, Drug and Cosmetic Act of 1990. Compliance is mandatory for Laser products marketed in the United States and is reported to the Center for Devices and Radiological Health (CDRH) of the U.S. Food and Drug Administration of the U.S. Department of Health and Human Services (DHHS). This means that the device does not produce hazardous laser radiation.

The label shown on page 1-13 indicates compliance with the CDRH regulations and must be attached to laser products marketed in the United States.

#### **WARNING**

Use of controls, adjustments or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.

 This is a semiconductor laser. The maximum power of the laser diode is 25 mW and the wavelength is 775-800 nm (bizhub 558) or 770-800 nm (bizhub 458).

#### For European users

#### **WARNING**

Use of controls, adjustments or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.

 This is a semiconductor laser. The maximum power of the laser diode is 25 mW and the wavelength is 775-800 nm (bizhub 558) or 770-800 nm (bizhub 458).

#### Laser safety label

A laser safety label is attached to the outside of the machine, as shown below.

#### **Ozone release**

Locate the Machine in a Well-Ventilated Room

A negligible amount of ozone is generated during normal operation of this machine. An unpleasant odor may, however, be created in poorly ventilated rooms during extensive machine operations. For a comfortable, healthy and safe operating environment, it is recommended that the room be well ventilated.

Placer l'appareil dans une pièce largement ventilée

Une quantité d'ozone négligable est dégagée pendant le fonctionnement de l'appareil quand celui-ci est utilisé normalement. Cependant, une odeur désagréable peut être ressentie dans les pièces dont l'aération est insuffisante et lorsque une utilisation prolongée de l'appareil est effectuée. Pour avoir la certitude de travailler dans un environnment réunissant des conditions de confort, santé et de sécurité, il est préférable de bien aérer la pièce ou se trouve l'appareil.

#### Acoustic noise (for European users only)

Der höchste Schalldruckpegel beträgt 70 dB(A) oder weniger gemäß EN ISO 7779.

#### Notification for California customers

This product uses a CR Lithium Battery which contains perchlorate material.

This perchlorate warning applies to perchlorate-containing lithium batteries sold or distributed in California, USA.

"Perchlorate Material - Special handling may apply, See www.dtsc.ca.gov/hazardouswaste/perchlorate."

#### Recycling batteries (for Taiwan users only)

根據地方規定處理使用的電池。

#### For EU member states only

This symbol means: Do not dispose of this product together with your household waste!

Please refer to the information of your local community or contact our dealers regrading the proper handling of end-of-life electric and electronic equipments. Recycling of this product will help to conserve natural resources and prevent potential negative consequences for the environment and human health caused by inappropriate waste handling.

#### For EU member states only

This product complies with RoHS (2011/65/EU) Directive.

#### Telephone cable (for users in countries subject to class B regulations)

Connect a telephone cable with a ferrite core to the telecommunication port of this machine. (Connect the modular jack on the ferrite-core-equipped end of the telephone cable to the telecommunication port.)

#### **USB Host**

Connect USB devices (Memory, Authentication, Hub etc.) devices directly to the USB host. If an extension cable is used, electromagnetic interference could occur.

# Introduction

#### 1.4 Caution notations and labels

Safety precaution notations and labels appear on this machine at the following positions. Be very careful that an accident does not occur when operations such as removing paper jams and staple jams are performed.

#### NOTICE

Do not remove caution labels or notations. If any caution label or caution notation is soiled, please clean to make legible. If you cannot make them legible, or if the caution label or notation is damaged, please contact your service representative.

Introduction

#### 1.5 Special notice to user

#### For Canada

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

Le présent produit est conforme aux spécifications techniques applicables d'Innovation, Sciences et Développement économique Canada.

The Ringer Equivalence Number (REN) indicates the maximum number of devices allowed to be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices not exceed five.

L'indice d'équivalence de la sonnerie (IES) sert à indiquer le nombre maximal de dispositifs qui peuvent étre raccordés à une interface téléphonique. La terminaison d'une interface peut consister en une combinaison quelconque de dispositifs, à la seule condition que la somme des IES de tous les dispositifs n'excède pas cinq.

#### For U.S.A.

FCC PART 68 REQUIREMENTS:

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On the cover of this equipment is a label that contains, among other information, a product identifier in the format US:AAAEQ##TXXXX. If required, this information must be provided to the telephone company.

This equipment uses certification jack USOC RJ11C.

A plug and jack used to connect this equipment to the premises wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA.

A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. See installation instructions for details.

The REN is used to determine the number of devices that may be connected to a telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0).

To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact the local telephone company. For products approved after July 23, 2001, the REN for this product is part of the product identifier that has the format US: AAAEQ##TXXXX. The digits represented by ## are the REN without a decimal point (e.g., 03 is a REN of 0.3). For earlier products, the REN is separately shown on the label.

If this equipment FK-514 or FK-515 causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice isn't practical, the telephone company will notify the customer as soon as possible. Also, you will be advised of your right to file a complaint with the FCC if you believe it is necessary.

The telephone company may make changes in its facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.

If trouble is experienced with this equipment FK-514 or FK-515, for repair or warranty information, please contact the Konica Minolta dealer location where you purchased this equipment. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.

Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission or corporation commission for information. If you home has specially wired alarm equipment connected to the telephone line, ensure the installation of FK-514 or FK-515 does not disable you alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device, including FAX machines, to send any message unless such message clearly contains in a margin at the top or bottom of each transmitted page or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity, or other individual sending the message and the telephone number of the sending machine or such business, other entity, or individual. (The telephone number provided may not be a 900 number or any other number for which charges exceed local or long-distance transmission charges.)

In order to program this information into your FAX machine, you should complete the following steps: See [Sending by Renaming the Sender ([Fax Header Settings])], of the User's Guide [Fax].

WARNING/CAUTION Explained

#### **WARNING**

• The exclamation point within an equilateral triangle followed by the word "Warning" is intended to alert the user to the possibility that a disregard for the warning may result in fatal hazards or critical injuries. Be sure to focus your attention on the Warning headings when reading this Quick Start Guide.

#### **≜**CAUTION

 The exclamation point within an equilateral triangle followed by the word "Caution" is intended to alert the user to the possibility that a disregard for the caution may result in minor injuries or in physical damage. Be sure to focus your attention on the Caution headings when reading this Quick Start Guide.

#### For New Zealand

This device is equipped with pulse dialing while the Telecom standard is DTMF tone dialing. There is no guarantee that Telecom lines will always continue to support pulse dialing.

Use of pulse dialing, when this equipment is connected to the same line as other equipment, may give rise to bell tinkle or noise and may also cause a false answer condition. Should such problems occur, the user should not contact the Telecom Fault Service.

This equipment may not provide for the effective hand-over of a call to another device connected to the same line.

The grant of a Telepermit for any item of terminal equipment indicates only that Telecom has accepted that the item complies with minimum conditions for connection to its network. It indicates no endorsement of the product by Telecom, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of Telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Telecom's network services.

The automatic calling functions of this equipment must not be used to cause a nuisance to other customers.

Telepermitted equipment only may be connected to the auxiliary telephone port. The auxiliary port is not specifically designed for 3-wire connected equipment. 3-wire might not respond to incoming ringing when connected to this port.

Introduction

#### For Europe

The Facsimile has been approved in accordance with Council Decision 1999/5/ EC for pan-European single terminal connection to the public switched telephone network (PSTN). However, due to differences between the individual PSTNs provided in different countries, the approval does not, of itself, give an unconditional assurance of successful operation on every PSTN network terminal point.

In the event of problems, you should contact your equipment supplier in the first instance.

# CE

#### **1.6** Space requirements

To ensure that machine operation, consumables replenishing, part replacement, and regular maintenance can easily be performed, adhere to the recommended space requirements detailed below.

bizhub 558/458 + PC-210 + FS-537 SD + RU-513 + PI-507 + LU-207

Unit: inch (mm)

bizhub 558/458 + PC-210 + FS-536 SD + RU-513 + LU-302

Unit: inch (mm)

bizhub 558/458 + PC-210 + FS-533 + MK-730 + CU-102

Unit: inch (mm)

#### NOTICE

Be sure to allow a clearance of 8 inches (200 mm) or more at the back of this machine for the ventilation duct.

Chapter

#### 1.7 Operation precautions

To ensure the optimum performance of this machine, observe the precautions described below.

#### **Power source**

The power source requirements are as follows.

- Voltage fluctuation: Maximum ± 10% (at 110 V/120 V/220 to 240 V AC)
- Frequency fluctuation: Maximum ± 3 Hz (at 50 Hz/60 Hz)
- Use a power source with as little voltage or frequency fluctuations as possible.

#### **Operating environment**

The environmental requirements for correct operation of the machine are as follows.

- Temperature: 50°F (10°C) to 86°F (30°C) with fluctuations of no more than 18°F (10°C) within an hour
- Humidity: 15% to 85% with fluctuations of no more than 10% within an hour

#### Storage of copies

To store copies, follow the recommendation listed below.

- Copies that are to be kept for a long time should be kept where they are not exposed to light in order to prevent them from fading.
- Adhesive that contains solvent (e.g., spray glue) may dissolve the toner on copies.
- Color copies have a thicker layer of toner than normal black-and-white copies. Therefore, when a color copy is folded, the toner at the fold may peel off.

#### Data stored in this machine

For the machine with hard disk, it is suggested to delete all data stored in all hard disk areas using the overwrite all data function to prevent leakage of data prior to transfer or disposal of the machine, or returning of the leased machine.

For details of the overwrite all data function, refer to the User's Guide. Contact your service representative before deleting data.

It is recommended to backup HDD periodically as the measures for HDD defect. For the detail information of HDD backup, contact your service representative.

#### 1.8 Legal restrictions on reproduction

Certain types of originals must never be reproduced with the purpose or intent to pass reproductions of such originals off as the originals.

The following is not a complete list, but is meant to be used as a guide to responsible reproduction.

<Financial Instruments>

- Personal checks
- Traveler's checks
- Money orders
- Certificates of deposit
- Bonds or other certificates of indebtedness
- Stock certificates

<Legal Originals>

- Food stamps
- Postage stamps (canceled or uncanceled)
- Checks or drafts drawn by government agencies
- Internal revenue stamps (canceled or uncanceled)
- Passports
- Immigration papers
- Motor vehicle licenses and titles
- House and property titles and deeds

<General>

- Identification cards, badges, or insignias
- Copyrighted works without permission of the copyright owner

In addition, it is prohibited under any circumstances to reproduce domestic or foreign currencies, or works of art without permission of the copyright owner.

When in doubt about the nature of an original, consult with legal counsel.

#### NOTICE

This machine provides the forgery prevention function in order to prevent financial instruments from being reproduced illegally.

We appreciate your understanding that printed images may infrequently have some noise or image data may not be stored under certain circumstances due to this forgery prevention function.

#### 1.10 SOFTWARE LICENSE AGREEMENT

This package contains the following materials provided by KONICA MINOLTA, INC. (KM): software included as part of the printing system ("Printing Software"), the digitally-encoded machine-readable outline data encoded in the special format and in the encrypted form ("Font Programs"), other software which runs on a computer system for use in conjunction with the Printing Software ("Host Software"), and related explanatory written materials ("Documentation"). The term "Software" shall be used to describe Printing Software, Font Programs and/or Host Software and also include any upgrades, modified versions, additions, and copies of the Software.

The Software is being licensed to you under the terms of this Agreement.

KM grants to you a non-exclusive sublicense to use the Software and Documentation, provided that you agree to the following:

- 1. You may use the Software and accompanying Font Programs for imaging to the licensed output device(s), solely for your own internal business purposes.
- 2. In addition to the license for Font Programs set forth in Section 1 above, you may use Roman Font Programs to reproduce weights, styles, and versions of letters, numerals, characters and symbols ("Typefaces") on the display or monitor for your own internal business purposes.
- 3. You may make one backup copy of the Host Software, provided your backup copy is not installed or used on any computer. Notwithstanding the above restrictions, you may install the on any number of computers solely for use with one or more printing systems running the Printing Software.
- 4. You may assign its rights under this Agreement to an assignee of all of Licensee's right and interest to such Software and Documentation ("Assignee") provided you transfer to Assignee all copies of such Software and Documentation Assignee agrees to be bound by all of the terms and conditions of this Agreement.
- 5. You agree not to modify, adapt or translate the Software and Documentation.
- 6. You agree that you will not attempt to alter, disassemble, decrypt, reverse engineer or decompile the Software.
- 7. Title to and ownership of the Software and Documentation and any reproductions thereof shall remain with KM and its licensor.
- 8. Trademarks shall be used in accordance with accepted trademark practice, including identification of the trademark owner's name. Trademarks can only be used to identify printed output produced by the Software. Such use of any trademark does not give you any rights of ownership in that trademark.
- 9. You may not rent, lease, sublicense, lend or transfer versions or copies of the Software Licensee does not use, or Software contained on any unused media, except as part of the permanent transfer of all Software and Documentation as described above.
- 10. IN NO EVENT WILL KM OR ITS LICENSOR BE LIABLE TO YOU FOR ANY CONSEQUENTIAL, INCI-DENTAL INDIRECT, PUNITIVE OR SPECIAL DAMAGES, INCLUDING ANY LOST PROFITS OR LOST SAVING, EVEN IF KM HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY THIRD PARTY. KM OR ITS LICENSOR DISCLAIMS ALL WARRANTIES WITH REGARD TO THE SOFTWARE, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION IMPLIED WAR-RANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-IN-FRINGEMENT OF THIRD PARTY RIGHTS. SOME STATES OR JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTIAL, CONSEQUENTIAL OR SPECIAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.
- 11. Notice to Government End Users: The Software is a "commercial item," as that term is defined at 48 C.F.R.2.101, consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212. Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4, all U.S. Government End Users acquire the Software with only those rights set forth herein.
- 12. You agree that you will not export the Software in any form in violation of any applicable laws and regulations regarding export control of any countries.

#### 1.11 i-Option LK-105 v4 (Searchable PDFs) End User License Agreement

Subject to your purchase of a license key of i-Option LK-105 v4 (searchable PDFs, or "Program"), KONICA MINOLTA, INC. (KM) grants you a non-exclusive and non-transferable sublicense to use the Program provided that you comply with all terms and conditions stated in this Agreement.

- 1. You agree not to reproduce, modify, or adapt the Program. You may not allow a third party to use the Program or transfer it to a third party.
- 2. You agree that you will not attempt to alter, disassemble, decrypt, reverse engineer, or decompile the Program.
- 3. KM or its licensor own the copyright and other intellectual property rights. No copyright or other intellectual property rights shall be transferred to you through the granting to you of a license to use the Program.
- 4. IN NO EVENT WILL KM OR ITS LICENSOR BE LIABLE TO YOU FOR ANY CONSEQUENTIAL, INCI-DENTAL INDIRECT, PUNITIVE OR SPECIAL DAMAGES, INCLUDING ANY LOST PROFITS OR LOST SAVING, EVEN IF KM HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY THIRD PARTY. KM OR ITS LICENSOR DISCLAIMS ALL WARRANTIES WITH REGARD TO THE PROGRAM, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION IMPLIED WARRAN-TIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGE-MENT OF THIRD PARTY RIGHTS. SOME STATES OR JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.
- 5. You agree that you will not export the Program in any form in violation of any applicable laws and regulations regarding export control of any countries.
- 6. Notice to Government End Users (this provision shall apply to U.S. government end users only) The Program is a "commercial item," as that term is defined at 48 C.F.R.2.101, consisting of "commercial computer software" and "commercial computer software documentation," as such terms are used in 48 C.F.R. 12.212. Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4, all U.S. Government End Users acquire the Program with only those rights set forth herein.
- 7. This license shall automatically terminate upon a failure on your part to comply with any term or condition of this Agreement, in which case you agree to immediately stop use of the Program.
- 8. This Agreement shall be governed by the laws of Japan.

# 2 About this machine

# 2.1 Intended use of office MFP devices

### Intended use

This Multi Function Product incorporates the functionality of multiple office devices in one. It is designed to be used as an office system for the following purposes:

- Print, copy, scan and fax documents.
- Use available finishing functions such as duplexing, stapling, hole-punching and booklet creation if appropriate options are installed.
- Store scanned documents on external USB memory devices; send scanned documents to network scan destinations such as FTP, WebDAV and E-mail.

The intended use also requires that:

- The system is used within the limits of device specifications and specifications of optional components,
- All safety instructions in the related user's guides are observed,
- Legal restrictions on reproduction (see page 1-22) are observed,
- Inspection and maintenance instructions are adhered to,
- General, national and company safety provisions are observed.

## Impermissible operating conditions

The system may not be operated if:

- Errors or damage have been discovered,
- Maintenance intervals have been exceeded,
- Mechanical or electrical functions do not work as they should.

## **Exclusion of liability**

The manufacturer of the system assumes no liability for damages if the system was operated under impermissible conditions.

bizhub 558/458

# 2.2 Introduction to user's guide

The user's guide of this product consists of the booklet manual and the User's Guide CD.

The booklet manual describes basic machine procedures and frequently asked questions.

If you want to learn about more detailed functions or operation methods, refer to the User's Guide included in the User's Guide CD.

In addition, you can access [Frequently Asked Questions] on the top page (home) of the relevant file on the User's Guide CD for detailed information on "Frequently Asked Questions" and "Troubleshooting".

Name	Overview
Quick Start Guide	This manual describes basic procedures users will need to know in order to use this machine, as well as setting proce- dures. It also introduces major functions, FAQs, and basic troubleshooting procedures to make use of this machine more conveniently. This manual also contains notes and precautions that should be followed in order to use this machine. Please be sure to read this manual before using this machine.
User's Guide CD	This CD contains basic and detailed information on the func- tions of this product and also explanations of other various setting functions.

## 2.2.1 User's Guide CD

The User's Guide CD is provided with this machine.

Select a desired function on the top page (Home), and check the details of the function.

Selecting [Introduction] on the top page (Home) allows you to view detailed methods for using the User's Guide.

### Layout of top page

No.	Name	Description
1	[Search by Function]	Searches for desired information using functions such as printing or scanning and buttons displayed on the <b>Touch Panel</b> .
2	[Search]	Enter one or multiple keywords to search within the User's Guide. (Some pages are not targeted for searching.)
3	[Search by Usage]	Searches for the required operations of this machine based on the re- quest format of "wanting to do something". This function also pro- vides security measures against various situations and methods to realize cost reductions.
4	[Search by Illustration]	Searches for the required operations of this machine based on the output result, functions, and operation images.

## **Operating environment**

Item	Specifications
Supported operating sys- tems	Windows Vista (SP2), Windows 7 (SP1), Windows 8.1, Windows 10 Mac OS X 10.7/10.8/10.9/10.10/10.11
Supported Web browsers	<ul> <li>Windows: Microsoft Internet Explorer 9.x/10.x (Desktop version)/11.x (Desktop version), Microsoft Edge, Firefox 20 or later, Google Chrome 26 or later</li> <li>Mac OS: Safari 6.0.3 to 9.x</li> <li>We recommend that you use the latest Web browser that is compatible with your operating system to help you use this machine more conveniently and comfortably.</li> <li>Check that JavaScript in your Web browser is enabled. The User's Guide uses JavaScript for the page display and search functions.</li> </ul>
Display resolution	1024 × 768 pixels or more

## Viewing the top page

For Windows

- When the User's Guide CD is inserted into the CD-ROM drive of your computer, the AutoPlay dialog box will be displayed. Clicking [Run rundll32.exe] displays the model selection screen. Select your model in the displayed model selection screen to display the top page.
- If the model selection screen does not appear, select [Computer], right-click the [Users\_Guide\_CD] icon, then click [Open]. If you double-click [index.html] in the folder, the model selection screen will open. Select your model in the displayed model selection screen to display the top page.

For Macintosh

• Double-click the CD icon on the desktop, then [index.html] to display the model selection screen. Select your model in the displayed model selection screen to display the top page.

## 2.2.2 Target groups

The user's guides (see page 2-3) are intended for the following users of the system:

Target group	Description
User	Persons using the system for its intended use (see page 2-2) as well as man- aging system functions and consumables according to the assigned user rights.
Administrator	Persons managing consumables, system functions, users and access rights; adjusting system settings, and establishing network connections.

Everyone who uses this system must have read and understood the related user's guides.

## 2.2.3 Symbols and notations used in this manual

## **Procedural instruction**

- ✓ This check mark symbol shows a precondition of a procedure.
- **1** This format number "1" represents the first step.
- 2 This format number represents the order of serial steps.
  - $\rightarrow$  This symbol indicates a supplementary explanation of a procedural instruction.

## Symbols and notations

Symbols/Notations	Description	
<b>企WARNING</b>	Improper handling can cause serious injury or death.	
ACAUTION	Improper handling can cause minor injury or dam- age to houses and property.	
NOTICE	This symbol indicates a risk that may result in dam- age to this machine or documents. Follow the instructions to avoid property damage.	
Tips	This symbol indicates supplemental information of a topic as well as options required to use a func- tion.	

Symbols/Notations	Description	
Reference	This symbol indicates reference functions related to a topic.	
Related setting	This shows the settings related to a particular topic for any user.	
Related setting (for the administrator)	This shows the settings related to a topic only for administrators.	
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~	This check mark symbol shows a precondition of a procedure.	
→	This symbol indicates a supplementary explanation of a procedural instruction.	
[]	An item enclosed by brackets [] indicates a key name on the <b>Touch Panel</b> or computer screen, or the name of a user's guide.	
Bold text	This presents a key name, part name, product name, or option name on the <b>Control Panel</b> .	

## Names and notations of applications

This manual uses a notation for each application name as shown below.

Name	Notations used in this manual
PageScope Web Connection	Web Connection
PageScope My Panel Manager	My Panel Manager
PageScope Mobile for iPhone/iPad	Mobile for iPhone/iPad
PageScope Mobile for Android	Mobile for Android
bizhub Remote Access	Remote Access

# 2.3 About this machine

## 2.3.1 Optional components

Various optional components can be added to meet your office requirements.

## List of optional components

No.	Name	Description
1	Main unit	Scans the original in the scanner section, and prints a scanned image in the printer section.
2	Fax Kit FK-514	Used to operate this machine as a fax machine. Alternatively, this kit allows more telephone lines to be connected.
3	Clean Unit CU-102	Collects small particles (UFP) generated in this machine to prevent them from escaping this machine.

Chapter 2	
About this machine	

No.	Name	Description
4	Authentication Unit AU-102	Performs user authentication by scanning vein patterns in the finger. The <b>Working Table WT-506</b> is required to install the <b>Authentication</b> <b>Unit AU-102</b> .
5	Authentication Unit AU-201S	Performs user authentication by scanning information recorded on the IC card or NFC-compatible Android terminal. The <b>Mount Kit MK-735</b> is required to install the <b>Authentication Unit</b> <b>AU-201S</b> . This unit can also be installed on the <b>Working Table WT-506</b> .
6	Working Table WT- 506	Provides an area to temporarily place an original or other materials. This is also used when the <b>Authentication Unit AU-102</b> or <b>Authenti-</b> <b>cation Unit AU-201S</b> is installed.
7	Keypad KP-101	It is equipped on the side of the <b>Control Panel</b> . Allows you to enter numbers by using the Hardware Keypad.
8	Keyboard Holder KH- 102	Install this holder to use a external keyboard. For details on external keyboards, contact your service representa- tive.
9	Security Kit SC-508	Supports the copy guard and password copy functions to prevent un- authorized copying.
10	Fax Mount Kit MK-742	This unit is required to install <b>FAX Kit FK-515</b> . This option can be used in North America.
11	FAX Kit FK-515	Used to add telephone lines. Fax Mount Kit MK-742 is required to install FAX Kit FK-515. This option can be used in North America.
12	Mount Kit MK-730	Used to print data on banner paper.
13	Large Capacity Unit LU-302	Allows you to load up to 3000 sheets of $8-1/2 \times 11$ (A4) size. To install the Large Capacity Unit LU-302, the Paper Feed Cabinet PC-410, Paper Feed Cabinet PC-110, or Paper Feed Cabinet PC- 210 must be installed on this machine.
14	Large Capacity Unit LU-207	Allows you to load up to 2500 sheets of SRA3 or $11 \times 17$ (A3) size. To install the Large Capacity Unit LU-207, the Paper Feed Cabinet PC-410, Paper Feed Cabinet PC-110, or Paper Feed Cabinet PC- 210 must be installed on this machine.
15	Desk DK-705	Used to install this machine on the floor.
16	Desk DK-510	Used to install this machine on the floor.
17	Paper Feed Cabinet PC-410	Allows you to load up to 2500 sheets of $8-1/2 \times 11$ (A4) size.
18	Paper Feed Cabinet PC-210	Allows you to load up to 500 sheets respectively in the top and bottom trays.
19	Paper Feed Cabinet PC-110	Allows you to load up to 500 sheets in the top tray and use the bottom tray as a storage box.
20	Output Tray OT-506	Outputs printed pages.
21	Job Separator JS-506	Install this unit onto the output tray of this machine. This unit sorts printed sheets.
22	Finisher FS-533	Install this unit onto the output tray of this machine. Sorts, groups and staples printed paper before outputting it.
23	Punch Kit PK-519	Install this unit onto the <b>Finisher FS-533</b> . This unit supports the punching function.
24	Finisher FS-536	Sorts, groups and staples printed paper before outputting it. To install the <b>Finisher FS-536</b> , the <b>Relay Unit RU-513</b> is required. Al- so, <b>Desk DK-510</b> , <b>Paper Feed Cabinet PC-410</b> , <b>Paper Feed Cabi- net PC-110</b> , or <b>Paper Feed Cabinet PC-210</b> must be installed on this machine.

\_\_\_\_\_

No.	Name	Description
25	Finisher FS-536 SD	Sorts, groups, staples, folds, and binds printed paper before output- ting it. To install the Finisher FS-536 SD, the Relay Unit RU-513 is required. Also, Desk DK-510, Paper Feed Cabinet PC-410, Paper Feed Cab- inet PC-110, or Paper Feed Cabinet PC-210 must be installed on this machine. The Finisher FS-536 contains the Saddle Stitcher.
26	Punch Kit PK-520	Install this unit onto the <b>Finisher FS-536/FS-536 SD</b> . This unit supports the punching function.
27	Relay Unit RU-513	This unit is required to install the <b>Finisher FS-537/FS-537 SD/FS-536/FS-536 SD</b> on this machine.
28	Finisher FS-537 SD	Sorts, groups, staples, folds, and binds printed paper before output- ting it. To install the Finisher FS-537 SD, the Relay Unit RU-513 is required. Also, Desk DK-510, Paper Feed Cabinet PC-410, Paper Feed Cab- inet PC-110, or Paper Feed Cabinet PC-210 must be installed on this machine. The Finisher FS-537 contains the Saddle Stitcher.
29	Finisher FS-537	Sorts, groups and staples printed paper before outputting it. To install the <b>Finisher FS-537</b> , the <b>Relay Unit RU-513</b> is required. Al- so, <b>Desk DK-510</b> , <b>Paper Feed Cabinet PC-410</b> , <b>Paper Feed Cabi- net PC-110</b> , or <b>Paper Feed Cabinet PC-210</b> must be installed on this machine.
30	Punch Kit PK-523	Install this unit onto the <b>Finisher FS-537/FS-537 SD</b> . This unit supports the punching function.
31	Z Folding Unit ZU-609	Install this unit onto the <b>Finisher FS-537/FS-537 SD</b> . This unit supports the Z-fold function.
32	Post Inserter PI-507	Install this unit onto the <b>Finisher FS-537/FS-537 SD</b> . This unit allows you to insert cover sheets into the copied or printed sheets. This unit also allows you to manually operate the finisher (only the lower tray is available).
33	Job Separator JS-602	Install this unit onto the <b>Finisher FS-537/FS-537 SD</b> . This unit sorts printed sheets.

## List of other optional components

The following options are built into this machine and are not shown in the figure.

No.	Name	Description
1	Stamp Unit SP-501	Stamps a scanned original when sending a fax. This unit allows you to check that the original has been scanned.
2	Spare TX Marker Stamp 2	A replacement stamp for the Stamp Unit SP-501.
3	Local Interface Kit EK-608	Install this unit when using the voice guidance function. The speaker and USB port are added.
4	Local Interface Kit EK-609	Install this unit when using the voice guidance function or the connec- tion function with a Bluetooth LE-compatible iOS terminal. The speaker, USB port, and receiving device for Bluetooth LE com- munication are added. For details on the association with an iOS terminal, refer to the User's Guide CD.
5	i-Option LK-102 v3	Supports the PDF processing function that is one of the advanced functions.
6	i-Option LK-104 v3	Supports the voice guidance function that is one of the advanced functions.
7	i-Option LK-105 v4	Supports the searchable PDF function that is one of the advanced functions.
8	i-Option LK-106	Used to add a bar code font that is one of special fonts.

No.	Name	Description
9	i-Option LK-107	Used to add a unicode font that is one of special fonts.
10	i-Option LK-108	Used to add an OCR font that is one of special fonts. In the standard, the OCR-B font (PostScript) is available. Installing the <b>i-Option LK-108</b> allows use of the OCR-A font (PCL).
11	i-Option LK-110 v2	Used to add an advanced function that converts a file into the DOCX or XLSX type or generates highly-functional and high-quality data. <b>i-Option LK-110 v2</b> includes the function licenses for <b>i-Option LK- 102 v3</b> and <b>LK-105 v4</b> . If you purchase <b>i-Option LK-110 v2</b> , you do not need to purchase <b>i-Option LK-102 v3</b> or <b>LK-105 v4</b> . For details about functions able to be added, refer to the User's Guide CD.
12	i-Option LK-111	Supports the ThinPrint function that is one of the advanced functions.
13	i-Option LK-114	Supports the serverless pull printing function that is one of the advanced functions.
14	i-Option LK-115 v2	You can use TPM (Trusted Platform Module) that is one of the ad- vanced functions. Security enhancement is realized by encrypting confidential information such as certificates and passwords of this machine.
15	Upgrade Kit UK-212	Allows you to use this machine in a wireless network environment.
16	Upgrade Kit UK-215	Allows you to use this machine in a wireless network environment.
17	Heater HT-509	Prevents paper in a paper tray from being affected by humidity. The Heater HT-509 can be mounted when you purchase the Paper Feed Cabinet PC-110, Paper Feed Cabinet PC-210, Paper Feed Cabinet PC-410, or Desk DK-510.
18	Power Supply BOX MK-734	Turns on/off the Heater operations. The Power Supply BOX MK-734 can be mounted when you pur- chase the Paper Feed Cabinet PC-110, Paper Feed Cabinet PC- 210, Paper Feed Cabinet PC-410, or Desk DK-510.
19	Transformer kit TK- 101	This unit is required to enable the <b>Heater</b> of the <b>Large Capacity Unit LU-302</b> or <b>Large Capacity Unit LU-207</b> to function.
20	Mount Kit MK-735	Required to have <b>Authentication Unit AU-201S</b> built in to the main unit.
21	Hard Disk HD-524	Install this unit to perform mirroring of the hard disk contained in the main unit.

## 2.3.2 Name of parts (MFP)

### Front

The illustration shows the main unit that contains the optional **Output Tray OT-506** and **Paper Feed Cabinet PC-210**.

No.	Name	Description
1	Control Panel	Use the <b>Touch Panel</b> or buttons on this panel to operate this machine.
2	Original Tray	Load the original.
3	Stylus Pen	Used to operate the Touch Panel.
4	Bypass Tray	Used to load custom-size paper or special paper.
5	Paper-Empty Indica- tor	Flashes orange when a tray runs low on paper and lights up orange when the tray runs out of paper.
6	Paper Tray	Used to load standard-size paper. The number of trays varies depending on the installed <b>Paper Feed Cabinet</b> .
7	Lower Front Door	Open this door to replace consumables or to maintenance this ma- chine.
8	Upper Front Door	Open this door to replace a <b>Toner Cartridge</b> .
9	Data Indicator	Flashes blue while this machine is receiving a job. If a job is currently spooled, this indicator lamp lights up blue.
10	Status Indicator	Flashes white during printing.

	No.	Name	Description
_	11	Warning Indicator	Flashes orange if a warning occurs. Lights up orange if this machine has stopped due to an error.

## Side/rear

The illustration shows the main unit with Paper Feed Cabinet PC-210, Fax Kit FK-514, FAX Kit FK-515, Fax Mount Kit MK-742, Power Supply BOX MK-734, and Clean Unit CU-102.

(FAX Kit FK-515 and Fax Mount Kit MK-742 can be used in North America)

No.	Name
1	Heater Power Switch
2	Power Cord
3	Telephone Jack 4 (LINE PORT4)
4	Telephone Jack 3 (LINE PORT3)
5	Jack for connecting a telephone (TEL PORT1)
6	Telephone Jack 1 (LINE PORT1)
7	Telephone Jack 2 (LINE PORT2)
8	USB Port (Type A) USB2.0/1.1
9	Network Connector (10Base-T/100Base-TX/1000Base-T)
10	USB Port (Type B) USB2.0/1.1

## Reference

For details, refer to the User's Guide CD.

# 2.3.3 Name of parts (Optional units)

This section shows the names of distinctive parts for each optional unit that can be installed in this machine.

# Finisher FS-537/Finisher FS-537 SD/Punch Kit PK-523/Z Folding Unit ZU-609

No.	Name
1	Output Tray
2	Staple Cartridge
3	Punch Kit
4	Punch Scrap Box
5	Saddle Stitcher

No.	Name
1	Z Folding Unit
2	Saddle Staple Cartridge 1
3	Saddle Staple Cartridge 2
4	Folding Output Tray
5	Stopper

## Job Separator JS-602

## Post Inserter PI-507

No.	Name
1	Lower Tray
2	Upper Tray
3	Post Inserter Control Panel

## Reference

For details on how to use the Post Inserter Control Panel, refer to the User's Guide CD.

No.	Name
1	Punch Kit
2	Staple Cartridge
3	Output Tray
4	Tray Extension

## Job Separator JS-506

No.	Name
1	Output Tray

No.	Name
1	Output Tray
2	Staple Cartridge
3	Punch Scrap Box
4	Saddle Stitcher

No.	Name
1	Punch Kit
2	Saddle Staple Cartridge 1
3	Saddle Staple Cartridge 2
4	Folding Output Tray

# Large Capacity Unit LU-302/LU-207

## 2.4 Power supply

This machine provides two power switches: **Power** key on the **Control Panel** and **Main Power Switch** on the machine. Under normal conditions, operate the **Power key** of the **Control Panel**. Use **Main Power Switch** to restart this machine.

### 2.4.1 Turning the power on and off

Turn the power on and off only when necessary, for example, when the administrative settings are changed or a power failure occurs.

1 Open the Lower Front Door, and press | on the Main Power Switch.

2 Press () on the Main Power Switch.

### NOTICE

When restarting this machine, turn the **Main Power Switch** off and on again after 10 or more seconds have passed.

## 2.4.2 Operating the Power key

To immediately shift to the power save mode, for example, when work is finished or when not operating this machine for a long period of time, press the **Power** key.

Depending on how long the **Power** key is pressed, the state of the power save mode to be activated will differ.

Pressing the **Power** key briefly during operation shifts to the low power or sleep mode. Holding down the Power key shifts to the Sub Power OFF mode.

To return this machine from the power save mode to the normal mode, press the **Power** key again.

In the low power or sleep mode, you can return this machine from the power save mode to the normal mode simply by placing your hand close to the **Control Panel**.

Status of this machine		Description	
Power Save mode	Low Power or Sleep mode	Flashes blue. This machine returns to the normal mode when data or faxes are re- ceived.	
	Sub Power OFF mode	Lights up orange. This machine can receive data or faxes, but cannot scan or print an original. If data or faxes are received when the machine is in the Sub Power OFF mode, they are printed when the machine returns to the normal mode.	
Normal mode	During opera- tion	Lights up blue.	

### 2.4.3 Power save function

If the specified time elapses after the machine becomes inactive, the machine automatically shifts to the power save mode; for example, the **Touch Panel** display is turned off. The **Power** key flashes blue in the power save mode. The power save mode returns to the normal mode by pressing any key on the **Control Panel** for instance.

There are two power save modes: the low power mode and the sleep mode. Sleep mode provides a greater power saving effect than Low Power mode. However, the time required to return to Normal mode is longer than the time required to revert to Low Power mode.

### Reference

The time required to shift to each mode can be changed in the Administrator Settings. For details, refer to the User's Guide CD.

### **Reducing power consumption**

To reduce power consumption in the standby state, change [Power Key Setting] to [Sub Power OFF].

Tap [Utility], and select [Administrator Settings] - [System Settings] - [Power Supply/Power Save Settings] - [Power Key Setting].

Chapter 2

For information on the default administrator password, refer to page 5-51.

After the setting is changed, the power save mode shifts as shown below depending on how the **Power** key is pressed.

- Pressing the **Power** key
- This machine shifts to the Sub Power OFF mode.
- In the Sub Power OFF mode, the machine can receive data or faxes, but cannot scan or print an original.
- If data or faxes are received when the machine is in the Sub Power OFF mode, they are printed when the machine returns to the normal mode.
- Holding down the **Power** key
- This machine shifts to the ErP Auto Power OFF mode.
- In the ErP Auto Power OFF mode, this machine cannot receive data or faxes and also cannot scan or print an original.
- This function provides a greater power saving effect than the sub power off mode, which is close to the state where the main power is turned off.

To enable the machine to return to the normal mode from the Sub Power OFF or ErP Auto Power OFF mode, press the **Power** key again.

### Reference

For details, refer to the User's Guide CD.

2-24

# 2.5 Control Panel

The optional Keypad KP-101 is equipped on the right side of the Control Panel.

## 2.5.1 Name of parts

No.	Name	Description	
1	Touch Panel	Displays setting screens and messages. Directly press this panel to carry out operations.	
2	Mobile touch area	Used to associate this machine with an NFC-compatible Android ter- minal. You can place an Android terminal with <b>Mobile for Android</b> installed on the mobile touch area to register this machine or to perform user authentication. This area is also used to associate this machine with an iOS terminal that supports Bluetooth LE. The optional <b>Local Interface Kit EK-609</b> is required to use the Bluetooth LE function. Bringing the iOS terminal closer to this machine allows you to register this machine or perform user authentication with an operation from <b>Mobile for iPhone/iPad</b> . For details, refer to the User's Guide CD.	
3	Access	If user authentication or account track is enabled, enter the user name and password for user authentication or the account name and pass- word for account track, then press this key to start the use of this ma- chine. After a target operation is completed, press this key once again to end the use of this machine.	
4	Menu	Press this key to display the Main Menu.	
5	Reset	Press this key to reset the settings you entered or changed on the <b>Control Panel</b> .	
6	Stop	Press this key to temporarily stop an active copy, scan, or print job.	
7	Start	Press this key to start an operation such as copying, scanning, faxing, or printing.	

No.	Name	Description	
8	1 - 4	<ul> <li>Press each key to switch the display of the Touch Panel to a function assigned to a Register key.</li> <li>1 ([Enlarge Display]): Enters Enlarge Display mode.</li> <li>2 ([Guidance]): Press this key to display the Help Menu. You can display descriptions of the functions and operating procedures on the screen.</li> <li>3 ([10 Keypad]): Displays the Keypad on the Touch Panel.</li> <li>4 ([Preview]): Press this key to display a finishing image with the current settings on the Touch Panel. This function can also print a single proof copy to be checked before printing a large number of copies.</li> <li>These keys can be assigned to any function in the Administrator Settings to be easy to use.</li> </ul>	
9	Power	Press this key to switch this machine to the Power Save mode. In the normal mode, the key lights up blue. In the power save mode, the key blinks blue or lights up orange. To create a higher power saving effect, you can change the setting in [Power Key Setting] of Administrator Settings. For [Power Key Set- ting], refer to page 2-23.	
10	Warning Indicator	Flashes orange if a warning occurs. Lights up orange if this machine has stopped due to an error.	

Equipped with the optional Keypad KP-101

No.	Name Description		
1	Voice GuidePress this key to start the voice guidance function (optional).		
2 <b>Keypad</b> Use this keypad to enter numeric values such as the number ies, zoom ratio, and fax number.		Use this keypad to enter numeric values such as the number of copies, zoom ratio, and fax number.	
3	C (Clear)	All the numeric values(number of pages, magnification, size, etc), which have been entered by <b>Keypad</b> , are canceled.	

#### 2.6 **Touch Panel**

#### 2.6.1 Main Menu

Press the **Menu** key on the **Control Panel** to display the main menu. In the main menu, you can configure settings such as frequently used functions or a shortcut key for jumping to each mode.

## Layout of main menu

No.	Name	Description	
1	[Accessibility]	Tap this button to adjust a <b>Touch Panel</b> tapping position, change keying sounds, and configure the operating environment of the <b>Control Panel</b> .	
	[Counter]	The total number of pages printed by this machine will be displayed while being summarized by each function.	
	User/Account Name	This area displays the name of the current login user or the account track name when User Authentication or Account Track is enabled. When User Authentication and Account Track are used together, the user name is displayed.	
	[Language]	Tap this button to temporarily change the language to be displayed on the panel. For details on how to display [Language], refer to the User's Guide CD.	
	[Function Search]	Tap this button to search for copy settings or fax/scan settings to go to the target function screen from the search result.	
	[Job List]	Tap this button to display current or standby jobs. If necessary, you can check job logs or print a communication report. This list displays the operation status of the current job when it is running. For details, refer to page 2-36.	
2	Page Indicator	Allows you to check which page is currently displayed when main menu keys are assigned to multiple pages.	
3	Main menu keys	<ul> <li>Display shortcut keys assigned to any function.</li> <li>By default, the main menu shows [Copy], [Scan/Fax], [User Box],</li> <li>[Sound Setting], [Address book], and [Utility].</li> <li>In some areas, [Quick Security] is located on the main menu by default.</li> </ul>	
	[Utility]	<ul> <li>Tap this button to configure settings of this machine or check the use status of this machine.</li> <li>[Utility] is always displayed.</li> </ul>	
4	Page switching key	Tap this key to switch pages when main menu keys are assigned to multiple pages.	

### Customizing the main menu

The main menu can be extended to three screens as necessary. Up to 25 keys can be assigned to three main menu screens which can be switched.

In addition, you can specify your favorite background pattern. If necessary, you can add a background pattern by registering an image on this machine.

### Reference

For details, refer to the User's Guide CD.

## 2.6.2 Slide menu

Tapping a tab key on the **Touch Panel** slides open the menu. The setting of the slide menu can be changed to suit your environment.

Name	Description
Tab key	Tap this key to open and close the slide menu.
Slide menu key	Display function keys assigned to any function. By default, the main menu shows [Copy], [Scan/Fax], [User Box], and [Inter- rupt].

### Customizing the slide menu

Up to five slide menus can be set.

You can configure the setting to prevent the slide menu. Also, you can display the **Keypad** or change the background color.

## Reference

For details, refer to the User's Guide CD.

# 2.6.3 Operating the Touch Panel

The Touch Panel of this machine supports user-friendly operations, such as, sliding a finger on the **Touch Panel**.

### Тар

Lightly touch the screen with your finger, then remove your finger from the screen immediately. This action is available when selecting or determining a menu.

## **Double-tap**

Lightly touch the screen with your finger twice in succession. Used to retrieve detailed information, to enlarge a thumbnail or preview image, and to open a User Box.

## Flick

Make a slight fillip while sliding your finger on the screen. Used to scroll the destination/job list or to feed a page in the Main menu screen/Preview screen.

### Drag

2

To move the scroll bar or document, place your finger on it and move your finger. Used to move the scroll bar or document.

## Pan

Slide your finger parallel in a front-to-back and side-to-side direction on the screen. Used to move to the intended display location if data spans multiple screens.

## Long-tap

Hold down the document by the finger. Used to display the icon related to the document.

Slide your finger to the intended place and release it while a document is selected. Used to move the document to the intended place.

## **Pinch-in / Pinch-out**

Place two fingers on the screen and then open or close them. Used to enlarge or reduce a preview image.

## Rotation

Place two fingers on the screen and then rotate them. Used to rotate a preview image.

## **Precautions for using the Touch Panel**

This machine features a capacitance-base touch panel. Note the following points when operating the **Touch Panel**.

- Use your finger or the **Stylus Pen** supplied with this machine. Note that the **Touch Panel** will not respond appropriately if you operate it using your nail or a pen tip instead of your finger or the **Stylus Pen**.
- Applying a strong force to the **Touch Panel** will damages the **Touch Panel**, and potentially cause a breakage.
- When operating the **Touch Panel**, do not press on it using excessive force or with a pointed object such as a mechanical pencil.
- Be careful not to operate **Touch Panel** with wet fingers. It may cause **Touch Panel** to be improperly operated.
- If you operate the **Touch Panel** with a gloved finger, the **Touch Panel** will not respond normally. You should operate it with a bare finger or using the **Stylus Pen** supplied with this machine.
- Note that the **Touch Panel** may not respond normally if the distance between the user and fluorescent light is 19-11/16 inches (500 mm) or less when you operate the **Touch Panel**.
- You must not use the Touch Panel near equipment that generates electrical noises such as an electric generator or air conditioner. Otherwise a malfunction may be caused by an influence of electrical noises.

## 2.6.4 How to display the Keypad

When tapping the input area on the copy screen and etc. for entering the number of copies or entering adjustment values, the **Keypad** will be displayed.

It can also be displayed by pressing the **10 Keypad** key (default: Register key **3**).

Input area for entering the number of copies

Input area for entering values

## How to move the Keypad

Move your finger while the upper side of **Keypad** is being pressed.

### How to close the Keypad

After entering, tap [Close] to close the **Keypad**.

It can also be closed by pressing the 10 Keypad key (default: Register key 3).

### To display the Keypad all the time

The **Keypad** can always be displayed to enable entry of the number of copies on the copy screen, User Box print setting screen, or browser print setting screen.

### Reference

For details, refer to the User's Guide CD.

### 2.6.5 Entering characters

When entering characters to register an address or program, use the keyboard screen displayed on the **Touch Panel**.

## When typing in "Group1":

- **1** To type in uppercase letters or symbols, tap the [Shift] key.
  - → If you mistyped, tap [←] or [→] to move the cursor to the character you want to clear, then tap the [Delete] key.
  - → Tap the [Shift] key again to return to the original keyboard screen.

Use the keyboard to enter the registration name. Press the ICI key to erase the entered registration name.

**2** After typing completes, tap [OK].

# 2.7 Jobs

## 2.7.1 Job screen

A job refers to an individual operation unit such as printing, sending, receiving, or saving.

When you tap [Job List] in the main menu or the main screen of each mode, the Job screen appears.

In the Job screen, you can view a list or history of a job currently being executed or print a sending-receiving result report.

In general, jobs are executed starting from the job at the top of the list of currently active jobs. If you are in a hurry to execute any particular jobs, you can rearrange the job execution order.

No.	Description
1	Displays jobs.
2	Select a job type. In [Comm. List], you can also print a sending-receiving result report.
3	Tap this button to narrow down the jobs to be displayed.
4	Tap this button to delete a job.
5	Tap this button to select a job to be executed preferentially.
6	Tap this button to view details of a selected job.

## Reference

For details, refer to the User's Guide CD.

## 2.7.2 Multi-job function

While a job is active, you can register another job. Up to 259 jobs can be registered in total.

The table below shows the maximum number of jobs that can be registered for each function.

Function	Minimum number of jobs	Maximum number of jobs
Сору	6	62
Print	11	67
Fax memory TX + Scan	55	111
Fax RX	100	156
Sharing	56	-

These values may vary depending on conditions.

## 2.8 Loading Paper

## 2.8.1 Loading paper in Tray 1 to Tray 4

Up to 500 sheets of plain paper can be loaded into each tray. Tray3 and Tray4 are optional.

## Applicable paper types

Plain paper, single-side-only paper, thin paper, special paper, thick paper, letterhead, colored paper, and recycled paper

## How to load paper

1 Pull out the tray.

**NOTICE** Be careful not to touch the **Film**.

2 Slide the Lateral Guide to fit the size of the loaded paper.

**3** Load paper into the tray with the print side facing up.

- 4 When loading paper other than plain paper, change the paper type setting.
  - → For details, refer to the User's Guide CD.

# 2.8.2 LCT (built-in)

Up to 2500 sheets of plain paper can be loaded into the LCT (built-in). The LCT (built-in) is an option.

# Applicable paper types

Plain paper, single-side-only paper, thin paper, special paper, thick paper, letterhead, colored paper, and recycled paper

#### How to load paper

**1** Pull out the tray.

**NOTICE** Be careful not to touch the **Film**.

**2** Load paper into the right side of the tray so that the side to be printed faces up.

#### NOTICE

Do not load the tray with paper of a size other than that previously specified. When changing the paper size, contact your service representative.

**3** Load paper into the left side of the tray so that the side to be printed faces up.

- 4 When loading paper other than plain paper, change the paper type setting.
  - → For details, refer to the User's Guide CD.

# 2.8.3 Loading paper into the Large Capacity Unit

Up to 3000 sheets of plain paper can be loaded into Large Capacity Unit LU-302, and up to 2500 sheets of plain paper into Large Capacity Unit LU-207.

The Large Capacity Unit is an option.

# Applicable paper types

Plain paper, single-side-only paper, thin paper, special paper, thick paper, letterhead, colored paper, recycled paper

#### How to load paper

**1** Open the **Upper Door**.

#### NOTICE

Be careful not to touch the surface of the Paper Feed Rollers with your hand.

2 Lift the Paper Feed Rollers, and load the paper with the required side facing downward.

#### NOTICE

Do not load the **Large Capacity Unit** with paper of a size other than that previously specified. When changing the paper size, contact your service representative.

- **3** When loading paper other than plain paper, change the paper type setting.
  - → For details, refer to the User's Guide CD.

When selecting a paper size other than for paper trays or printing on envelopes or transparencies, use the **Bypass Tray**.

To use the **Bypass Tray**, load paper and specify the paper type.

#### Applicable paper types

Plain paper, single-side-only paper, special paper, thick paper, postcard ( $4 \times 6$  (A6 Card)), transparency, letterhead, colored paper, envelope, label sheets, index paper, recycled paper, and banner paper

#### Applicable paper sizes

Туре	Size
Standard-size paper	12 × 18 to 5-1/2 × 8-1/2 , 4 × 6 , SRA3 , A3 to A6 , B4 to B6 , A6 card , 8 × 13 , 16K , 8K , banner paper, envelope (B5 (6-15/16 inches × 9-13/16 inches (176 mm × 250 mm)), C4 (9 inches × 12-3/4 inches (229 mm × 324 mm)), C5 (6-3/8 inches × 9 inches (162 mm × 229 mm)), C6 (6-3/8 inches × 4-1/2 inches (162 mm × 114 mm)), DL (8-11/16 inches × 4-5/16 inches (220 mm × 110 mm)), Com10 (4-1/8 inches × 9-1/2 inches (104.7 mm × 241.3 mm)), Monarch (3-7/8 inches × 7-1/2 inches (98.4 mm × 190.5 mm)))
Custom-size paper	Paper width: 3-9/16 to 12-5/8 inches (90 mm to 320 mm) Paper length: 5-1/2 to 47-1/4 inches (139.7 mm to 1,200 mm)

# Paper not available

Do not load the following paper into the **Bypass Tray**. Doing so may cause a paper jam or damage to the machine.

• Folded, torn or creased paper, or bundles of sheets of different sizes

#### How to load paper

1 Open the Bypass Tray.

- → To load large-sized paper, pull out the Tray Extension.
- → To load banner paper, install the **Mount Kit MK-730** for banner paper.

#### NOTICE

Be careful not to touch the surface of the Paper Feed Rollers with your hand.

- 2 Load paper with the print side facing down, then align the Lateral Guide to the paper.
  - $\rightarrow$  Insert paper into the tray until their edges are pressed against the back.

#### NOTICE

Do not load an excessive number of sheets such that the top of the stack is higher than the ▼mark. If paper is curled, flatten it before loading it.

- 3 Select the paper type and paper size.
  - → When loading paper other than plain paper, change the paper type setting.
  - → When loading custom sized paper, change the paper type setting.
  - → For details, refer to the User's Guide CD.

# Chapter 2

# Loading postcards

Up to 20 postcards can be loaded into the tray.

- 1 Load postcards in the a direction as shown in the figure with the print side facing down, then align the Lateral Guide to the paper.
  - → Insert postcards into the tray until their edges are pressed against the back.

#### NOTICE

When loading postcards into the Bypass Tray, note the following points.

→ When loading curled postcards, uncurl the postcards as shown in the figure in advance.

→ Do not put spare postcards in the **Bypass Tray**. Doing so causes a size detection error.

The screen for selecting the paper type and paper size appears.

- **2** Change the paper size setting.
  - → In [Paper Size] [Envelope/4 × 6] ([Envelope/A6 Card]), select [4 × 6] ([A6 Card]). Selecting [4 × 6] ([A6 Card]) sets [Paper Type] to [Thick3].

#### Loading transparencies

Up to 20 transparencies can be loaded into the tray.

- Load transparencies in the I direction as shown in the figure with the print side facing down, then align the Lateral Guide to the paper.
  - → Insert transparencies into the tray until their edges are pressed against the back.

The screen for selecting the paper type and paper size appears.

- **2** Change the paper type setting.
  - → Select [Transparency] from [Paper Type].

Tray Settings (Manual Tr	ay)

# Loading envelopes

Up to 10 envelopes can be loaded into the tray.

Image of a long envelope

Image of a Western-style envelope

- 1 Load envelopes as shown in the figure with the flap part facing up, then align the Lateral Guide to them.
  - → Insert envelopes into the tray until their edges are pressed against the back.
  - $\rightarrow$  The flap side of envelopes cannot be printed on.

#### NOTICE

When loading envelopes into the Bypass Tray, note the following points.

→ When loading envelopes, remove air from them, and securely press along the flap fold line. Otherwise, it will result in an envelope wrinkle or paper jam.

- → Do not use envelopes that have glue or release paper on the flap or the part covered by the flap on the body. Otherwise, the machine may be damaged or a failure may occur.
- → Do not put spare envelopes in the Bypass Tray. Doing so causes a size detection error.

The screen for selecting the paper type and paper size appears.

- **2** Change the paper type setting.
  - → Select [Envelope] from [Paper Type].

# 3 Basic Settings and Operations

# 3.1 Print function

#### 3.1.1 Required settings and basic operations (for Windows OS)

Print data created on your computer via the network.

This section describes how to configure standard print settings using the installer.

#### **Preparation flow**

The following describes a preparation flow to print data. For details, refer to the relevant page. This preparation is not required the second time or subsequent times.

- 1 Checking the cable connection (Administrator)
  - → Check that this machine is correctly connected to the network cable. For details, refer to page 3-3.
- 2 Checking network settings of this machine (Administrator)

 $\rightarrow$  Check the network settings of this machine. For details, refer to page 3-3. You can use this function with the default settings unless otherwise requested.

- **3** Installing the printer driver
  - → Install the printer driver on the computer. For details, refer to page 3-4.

#### **Operation flow**

The following describes a flow to print data from your computer. For details, refer to page 3-6.

- 1 Opening original data
  - → Open the data you want to print using the application software.
- **2** Configuring the printer driver for printing
  - → Select a printer driver, and change the setting if necessary before printing.

# Checking the cable connection

Check that a LAN cable is connected to the LAN port of this machine and the green LED is on.

#### Checking network settings of this machine

Tap [Utility], and select [Device Information]. Check that the IP address is displayed.

#### Installing the printer driver

Install the printer driver using the installer.

- ✓ Administrator privileges are required to perform this task.
- **1** Insert the printer driver DVD into the DVD drive of the computer.
- 2 Click [Printer Install].
- **3** Proceed with the procedure according to the on-screen instructions.

This automatically searches for the appropriate network and displays printers and MFPs that are compatible with the printer driver.

- **4** Select this machine from the list.
  - → If multiple identical models are displayed, check the IP address to select an appropriate one. For details on how to check the IP address of this machine, refer to page 3-3.

**5** Select the check boxes of the printer drivers to be installed.

#### 6 Click [Install].

# 7 Click [Finish].

Chapter 3

#### **Printing data**

- **1** Open the data you want to print using the application software.
- 2 In the [File] menu, click [Print].
- **3** Select the installed printer driver, and click [Print].

# Tips

- Clicking [Preferences] can change the setting of the printer driver as required.
- If user authentication is enabled in this machine, specify the required data such as the user name and password.

#### Types of printer drivers

Select a printer driver that will meet your printing requirements.

Driver type	Description
PCL	This is a standard driver for printing general office documents. Among the three drivers, this driver provides the fastest printing speed.
PS	This driver is effective for high-definition printing of data created in PostScript- supporting application software from Adobe or other vendors. This driver is of- ten used in graphics and light printing applications where good color repro- ducibility is important.
XPS	Developed after Windows Vista, this driver supports XML Paper Specification (XPS). This driver has several advantages, including high-quality reproduction of translucence.

# 3.1.2 Required settings and basic operations (for Mac OS)

Print data created on your computer via the network.

This section describes how to configure a printer driver, for the OS X 10.9 environment, Bonjour connection, and use of metric-size paper as major conditions.

#### **Preparation flow**

The following describes a preparation flow to print data. For details, refer to the relevant page.

This preparation is not required the second time or subsequent times.

- **1** Checking the cable connection (Administrator)
  - → Check that this machine is correctly connected to the network cable. For details, refer to page 3-8.
- 2 Checking network settings of this machine (Administrator)

 $\rightarrow$  Check the network settings of this machine. For details, refer to page 3-8. You can use this function with the default settings unless otherwise requested.

- **3** Installing the printer driver
  - $\rightarrow$  Install the printer driver on the computer. For details, refer to page 3-10.
- 4 Adding and configuring a printer driver
  - → Set up your computer so that data can be printed using the installed printer driver. For details, refer to page 3-12.

#### **Operation flow**

The following describes a flow to print data from your computer. For details, refer to page 3-13.

- 1 Opening original data
  - → Open the data you want to print using the application software.
- **2** Configuring the printer driver for printing
  - → Select a printer driver, and change the setting if necessary before printing.

#### Checking the cable connection

Check that a LAN cable is connected to the LAN port of this machine and the green LED is on.

#### Installing the printer driver

Install the printer driver using the installer.

- ✓ Administrator privileges are required to perform this task.
- **1** Insert the printer driver DVD into the DVD drive of the computer.
- **2** Select the target printer driver, and copy it to the desktop.

Example: /Driver/OS\_10\_9\_x/Letter/bizhub\_958\_558\_368\_367\_109.pkg (Printer driver for OS X 10.9 or later)

- $\rightarrow$  When ordinarily using metric-sized paper, select a printer driver in the "A4" directory.
- → The last three digits of the printer driver name indicate the version of the operating system.
- **3** Double-click the file copied onto the desktop.

**4** Proceed with the procedure according to the on-screen instructions until the installation screen appears.

5 Click [Install].

000	🥪 Install 💦 PS	۵

# Tips

3

If necessary, you can change the settings of the printer driver to click [Show Details].

# 3.2.1 Various transmission methods

The original data scanned by this machine can be sent and saved using a variety of methods.

# Sending data to your computer (SMB Send)

Send scanned data to a computer on the network. Once settings are configured, you can send data easily. For details, refer to page 3-16 and page 3-26.

# Transmitting data as E-mail attachment (E-mail TX)

Send scanned data as an E-mail attachment. This function is useful when you want to forward data to an outside location. For details, refer to page 3-35.

# Saving data to the USB memory device (External memory)

Directly save scanned data on the USB memory device connected to this machine. For details, refer to page 3-73.

# Various methods for transmitting and saving data

In addition to the above, data can be sent and saved in various methods. Select the appropriate one to meet your needs.

- Issuing a scan instruction from a computer (Web service function)
- Saving data to a User Box on the HDD (Save in User Box)
- Sending to an FTP server (FTP Send)
- Sending to a WebDAV server (WebDAV Send)

#### Reference

For details, refer to the User's Guide CD.

#### 3.2.2 Sending data to your Windows computer (SMB Send)

Send scanned data to a computer on the network.

Once settings are configured, you can send data easily.

#### **Preparation flow**

The following describes a preparation flow for sending scanned data. For details, refer to the relevant page. This preparation is not required the second time or subsequent times.

- 1 Checking the cable connection (Administrator)
  - → Check that this machine is correctly connected to the network cable. For details, refer to page 3-17.
- 2 Checking network settings of this machine (Administrator)
  - $\rightarrow$  Check the network settings of this machine. For details, refer to page 3-17. You can use this function with the default settings unless otherwise requested.
- **3** Checking computer information
  - → Check the information required for Store Address, and fill out the checklist. For details, refer to page 3-18.
- 4 Configuring your computer
  - → Configure settings to share a computer, or create a dedicated folder to receive files. For details, refer to page 3-20.

Chapter 3

Basic Settings and Operations

- **5** Registering destinations
  - → Register destinations to which files are sent while checking the checklist. For details, refer to page 3-22.

# **Operation flow**

The following describes a transmission flow. For details, refer to page 3-24.

- 1 Loading the original
- 2 Selecting a destination
  - → Select a registered destination, and check the settings such as the file type and image quality.
- 3 Press the Start key.
  - → Press the Start key to scan the original.

# Checking the cable connection

Check that a LAN cable is connected to the LAN port of this machine and the green LED is on.

# Checking network settings of this machine

Tap [Utility], and select [Device Information]. Check that the IP address is displayed.

# Tips

- In general, the default settings are available for network connection; however, some network environments require a change on network settings.
- If no IP address is displayed, you need to set up the network. Tap [Utility], and select [Administrator Settings] [Network Settings] [TCP/IP Settings]. Configure the required settings to suit your environment. For details, refer to the User's Guide CD.

• For information on the default administrator password, refer to page 5-51.

#### Checklist

While making notes in the checklist shown below, check computer information and configure settings for preparation. The completed checklist is used for Store Address.

Name	Entry column	Detail
Host Address	Host name or IP address to which the scanned data is sent	page 3-18
File Path	Name of the dedicated folder to receive the scanned data	page 3-20
User ID	User name required to log in to the computer	page 3-18
Password	<ul><li>Password required to log in to the computer</li><li>You should not enter this column for security reasons.</li></ul>	Contact your sys- tem administrator.

#### **Checking computer information**

Check the host address and user ID, and write them down.

- **1** Display the Properties window of the computer.
  - → In Windows 8.1/10, while pressing the [Windows] ( key, press the [X] key, and then select [System properties] in the displayed menu.
  - → In Windows Vista/7, from the Start menu, select [Computer] [System properties].
- 2 Check the computer name, and write it down in the Host address column of the checklist.

- → In Windows Vista/7, from the Start menu, select [All Programs] [Accessories] [Command Prompt].

#### 4 Check the user name, and write it down in the User ID column of the checklist.

→ In the example shown below, "taro.yamada" is displayed as the user ID.

3

Chapter 3

#### Configuring your computer

Create a new folder, and enable the sharing settings.

- $\checkmark$  Administrator privileges are required to perform this task.
- **1** Display the Network and Sharing Center window to configure a sharing setting.
  - → In Windows 8.1/10, while pressing the [Windows] ( key, press the [X] key, and select [Control Panel] [Network and Sharing Center] [Change advanced sharing settings] in the displayed menu, then select the [Turn on file and printer sharing] check box.
  - → In Windows 7, from the Start menu, select [Control Panel] [Network and Internet] [Network and Sharing Center] - [Change advanced sharing settings] then select the [Turn on file and printer sharing] check box.

# Sending the original

1 Load the original.

# 2 Tap [Scan/Fax].

**3** Select a destination.

- 4 Check the setting if necessary.
  - → Tap [Check Setting] to check the setting.

- → You can also check the setting using the keys displayed on the **Touch Panel**.
- → To change the setting, tap the desired key on the **Touch Panel**.

Settings	Description
[Simplex/Duplex]	Select whether to scan one or both sides of the original.
[Resolution]	Specify the scanning resolution.
[Color]	Select whether to scan the original in color or black and white mode.
[File Type]	Select the type of the file to save scanned data.
[Scan Size]	Specify the size of the original to be scanned.
[File Name/Subject Name/Other]	Change the file name or the subject of an E-mail to be sent.
[Separate Scan]	If all pages of the original cannot be loaded into the <b>ADF</b> at one time, change the setting to ON. You can load the pages of the original in several batches and handle them as one job. For details on using the separate scan function, refer to the User's Guide CD.

5 Press the Start key.

## 3.2.3 Sending data to your Mac computer (SMB Send)

Send scanned data to a computer on the network.

Once settings are configured, you can send data easily.

## **Preparation flow**

The following describes a preparation flow for sending scanned data. For details, refer to the relevant page. This preparation is not required the second time or subsequent times.

- **1** Checking the cable connection (Administrator)
  - → Check that this machine is correctly connected to the network cable. For details, refer to page 3-27.
- **2** Checking network settings of this machine (Administrator)
  - → Check the network settings of this machine. For details, refer to page 3-27.
- **3** Checking computer information
  - → Check the information required for Store Address, and fill out the checklist. For details, refer to page 3-29.
- 4 Configuring your computer
  - → Configure settings to share a computer, or create a dedicated folder to receive files. For details, refer to page 3-29.
- **5** Registering destinations
  - → Register destinations to which files are sent while checking the checklist. For details, refer to page 3-31.

#### **Operation flow**

The following describes a transmission flow. For details, refer to page 3-33.

- 1 Load the Original
- 2 Selecting a destination
  - → Select a registered destination, and check the settings such as the file type and image quality.
- **3** Press the **Start** key.
  - → Press the Start key to scan the original.

## Checking the cable connection

Check that a LAN cable is connected to the LAN port of this machine and the green LED is on.

## Checking network settings of this machine

Tap [Utility], and select [Device Information]. Check that the IP address is displayed.

5 Press the Start key.

## 3.2.4 Transmit the scanned data via E-mail (E-mail TX)

Send scanned data as an E-mail attachment.

This function allows you to receive data at an outside location, which is useful when a quick measure is required.

#### **Preparation flow**

The following describes a preparation flow for sending scanned data. For details, refer to the relevant page. This preparation is not required the second time or subsequent times.

- **1** Checking the cable connection (Administrator)
  - → Check that this machine is correctly connected to the network cable. For details, refer to page 3-36.
- **2** Checking network settings of this machine (Administrator)
  - → Check the network settings of this machine. For details, refer to page 3-36.
- **3** Configuring the E-mail transmission environment (Administrator)
  - → Configure a server for E-mail TX. For details, refer to page 3-37.
- **4** Configuring administrator information (Administrator)
  - → Register the administrator name and E-mail address used as the sender's address of an E-mail to be sent. For details, refer to page 3-38.

## **Operation flow**

The following describes a transmission flow. For details, refer to page 3-39.

- 1 Load the Original
- 2 Entering a destination
  - → Enter the destination E-mail address, and check the settings such as the file type and image quality.
- **3** Press the **Start** key.
  - → Press the Start key to scan the original.

## Checking the cable connection

Check that a LAN cable is connected to the LAN port of this machine and the green LED is on.

### Checking network settings of this machine

Tap [Utility], and select [Device Information]. Check that the IP address is displayed.

## Sending the original

1 Load the original.

**2** Tap [Scan/Fax].

**3** Enter a destination.

- 4 Check the setting if necessary.
  - → Tap [Check Setting] to check the setting.

- → You can also check the setting using the keys displayed on the Touch Panel.
- → To change the setting, tap the desired key on the **Touch Panel**.

Settings	Description
[Simplex/Duplex]	Select whether to scan one or both sides of the original.
[Resolution]	Specify the scanning resolution.
[Color]	Select whether to scan the original in color or black and white mode.
[File Type]	Select the type of the file to save scanned data.
[Scan Size]	Specify the size of the original to be scanned.
[File Name/Subject Name/Other]	Change the file name or the subject of an E-mail to be sent.
[Separate Scan]	If all pages of the original cannot be loaded into the <b>ADF</b> at one time, change the setting to ON. You can load the pages of the original in several batches and handle them as one job. For details on using the separate scan function, refer to the User's Guide CD.

5 Press the Start key.

## 3.3 Fax function

## 3.3.1 Required settings and basic operations

This section describes the settings required to send and receive a fax via a telephone line as well as the basic operations.

## **Tips**

• To use the Fax function, the optional **Fax Kit** is required.

## **Preparation flow**

The following describes a preparation flow to send a fax. For details, refer to the relevant page.

This preparation is not required the second time or subsequent times.

- **1** Checking the cable connection (Administrator)
  - → Check that this machine is correctly connected to the telephone line. For details, refer to page 3-43.
- **2** Registering transmission information (Administrator)
  - → Specify the name and fax number to be displayed as a sender when sending a fax from this machine. For details, refer to page 3-43.
- **3** Selecting the dialing method (Administrator)
  - → Select the dialing method to suit your environment. For details, refer to page 3-45.

## **Operation flow**

The following describes a flow to send a fax. For details, refer to page 3-46.

- 1 Load the Original
- 2 Entering a destination
  - → Enter the destination fax number, and check the settings such as the image quality.
- 3 Press the Start key.
  - → Press the Start key to send the original.

## Checking the cable connection

Check that a modular cable is connected to the LINE port of this machine.

## **Registering transmission information**

- 1 Tap [Utility], and select [Administrator Settings] [Fax Settings] [Header Information].
  - $\rightarrow$  For information on the default administrator password, refer to page 5-51.

	Use the menu buttons or keypad to make a	selection.

[Separate Scan]	If all pages of the original cannot be loaded into the <b>ADF</b> at one time, change the setting to ON. You can load the pages of the original in several batches and handle them as one job. For details on using the separate scan function, refer to the User's Guide CD.

## 5 Press the Start key.

## 3.3.2 Sending a fax directly from a PC (PC-FAX TX)

You can send a fax to the destination fax machine in the same manner as you print out data created on your computer.

Advantages to send a fax directly from a computer

- Realizing paper saving
- Completing fax operations without leaving your desk
- Offering clear images by sending data directly from a computer

#### Tips

- To use this function, the optional **Fax Kit** is required.
- This function is not supported in the Mac operating system.

## **Preparation flow**

The following describes a preparation flow to send a fax from a computer. For details, refer to the relevant page.

This preparation is not required the second time or subsequent times.

- **1** Checking the cable connection (Administrator)
  - → Check that this machine is correctly connected to the telephone line and network cable. For details, refer to page 3-49.
- 2 Checking network settings of this machine (Administrator)

→ Check the network settings of this machine. For details, refer to page 3-50. You can use this function with the default settings unless otherwise requested.

- **3** Installing the fax driver on your computer
  - $\rightarrow$  Installing the fax driver on your computer For details, refer to page 3-50.

## **Operation flow**

The following describes a flow to send a fax. For details, refer to page 3-52.

- 1 Creating data
  - → Create data to be sent using application software.
- 2 Configuring the fax driver
  - $\rightarrow$  Select a fax driver, and change the setting if necessary.
- **3** Entering a destination to send data
  - → Enter a destination to send data.

## Checking the cable connection

1 Check that a modular cable is connected to the LINE port of this machine.

2 Check that a LAN cable is connected to the LAN port of this machine and the green LED is on.

#### Checking network settings of this machine

Tap [Utility], and select [Device Information]. Check that the IP address is displayed.

Bookmark	Utility > Device Inform	ation	1

#### Installing the fax driver

Install the fax driver on the PC by using the installer.

This section describes how to configure the standard print settings.

- ✓ Administrator privileges are required to perform this task.
- **1** Insert the printer driver DVD into the DVD drive of the computer.
- 2 Click [Printer Install].

**3** Proceed with the procedure according to the on-screen instructions.

This automatically searches for the appropriate network and displays printers and MFPs that are compatible with the printer driver.

**4** Select this machine from the list.

5 Select a fax driver.

## 6 Click [Install].

Printer Installer - Confirm Confirm In Installation Summary	Installation Settings

# 3.4 Copy function

## **Basic operations**

The following describes the basic operations to make a copy.

- 1 If user authentication is enabled, the login screen appears. Tap the entry area or keyboard icon to enter the required information, then tap [Login] or press the **Access** key.
  - $\rightarrow$  If IC card or biometric authentication is enabled, refer to page 3-57.

the [Login] key or [Access] key.Use the [Operation Rights] key to change the login rights.		00:08 Memory 100%
	ID & Print	
	Logout after Print	Operation Rights
	Login without Print	
User Name	-	
Password	<u>.</u>	
	c	

**2** Load the original.

**3** Tap [Copy].

- 4 Check the basic settings.
  - → Check the output image configured as specified while viewing the output illustrations displayed on the Touch Panel.
  - → Tapping [Check Setting] can check detailed settings.

→ To change the setting, tap the desired key on the **Touch Panel**.

Settings	Description
[Original Type]	Specify the original type of the original.
[Booklet]	The pages in the original data are arranged and spread in a booklet for- mat and printed on both sides of sheets.
[Paper]	Specify the output paper.
[Zoom]	Specify the zoom ratio.
[Duplex/Combine] Specify double-sided copying or combine copying.	
[Finishing]	Configure the offset, punch, or staple setting for output paper.
[Density]	Adjust the copy density.
[Bkgd. Removal]	Adjust the background density when the print on the back side may be reproduced on the front side of the copy or when the original background is colored.

**5** Tap the input area for entering the number of copies.

6 Enter the number of copies using the Keypad, and press the Start key.

## **User authentication**

You can perform authentication by user or group in this machine.

Installing optional units enables IC card, NFC, or biometric authentication.

If IC card or NFC authentication is enabled, place the IC card or Android terminal on the card reader of the authentication unit.

If biometric authentication is enabled, put your finger on the finger vein reader of the authentication unit.

## 3.5 Registering a destination

## 3.5.1 Registering an address book

The fax and scan-to-send functions can register the frequently used destinations as address books. This section explains an example to register an address book to which a fax is sent.

# Using the Control Panel to register an address book - Registration from [Utility]

Select a destination type, and register destination information.

- 1 Tap [Utility], and select [One-Touch/ User Box Reg.] [Create One-Touch Destination] [Address Book (Public)].
- **2** Select the type of the destination you want to register.

	Use the menu buttons or keypad to make a selection.	
Bookmark	Utility > Create One-Touch Destination > Address Book (Public)

**5** Enter the required information such as the name, fax number, and index.

# 3.5.2 Information required to register a destination

The items to be entered or the number of screens required to register a destination vary depending on the transmission type. This section describes specific information required to register a destination.

# Tips

Setting items that can generally be used with defaults are omitted in this table.

Item		Description
[E-Mail]	[Name]	Enter the name of the destination to be registered as an address book.
	[E-Mail Address]	Enter the E-mail address used as the destination.
[User Box]	[Name]	Enter the name of the destination to be registered as an address book.
	[User Box]	Select a User Box to be used as a des- tination.
[Fax]	[Name]	Enter the name of the destination to be registered as an address book.
	[Fax Number]	Enter the fax number of the destination
[PC (SMB)]	[Name]	Enter the name of the destination to be registered as an address book.
	[User ID]	Enter the login name of the destination computer.
	[Password]	Enter the password required to log in to the computer.
	[Host Address]	Enter the computer name or IP address
	[File Path]	Enter the folder name to be used as the destination.
[FTP]	[Name]	Enter the name of the destination to be registered as an address book.
	[Host Address]	Enter the address of the FTP server.
	[File Path]	Enter the directory to be used as the destination.
	[User ID]	Enter the user ID required to log in with FTP.
	[Password]	Enter the password required to log in with FTP.

Item		Description
[WebDAV]	[Name]	Enter the name of the destination to be registered as an address book.
	[User ID]	Enter the user ID required to log in with WebDAV.
	[Password]	Enter the password required to log in with Web-DAV.
	[Host Address]	Enter the address of the WebDAV serv- er.
	[File Path]	Enter the directory to be used as the destination.

### 3.5.3 Registering a group

Several address books can be registered as a group.

This function is useful when you have jobs involving sending data to specified members at periodic intervals.

### Registering a new group

- 1 Tap [Utility], and select [One-Touch/User Box Reg.] [Create One-Touch Destination] [Group].
- **2** Tap [New].

- **3** Enter the destination name you want to register.
  - → For [Name], enter the destination name using the displayed keyboard.
  - → For [Sort Character], enter the same name as [Name].

	Select item and enter setting.	
Bookmark	No. of Destinations : 000

# 3.5.4 Retrieving a registered destination

Retrieve an address book or group to specify it as a destination to which data is sent.

### **Retrieving a destination**

1 Tap [Scan/Fax].

The destinations, which are categorized into [Favorite] when registering indexes, are displayed on the basic screen.

2 Narrow down destinations using index and address type.

# Specifying a destination

In addition to retrieving a registered destination, a destination can be specified in various methods.

Method	Description
[Direct Input]	Directly enter a destination using the keyboard screen or Keypad.
[Job History]	Specify a target destination in the job history (latest five destinations) on the scan/fax screen.
[Addr. Search]	Retrieves destination candidates by the prefix search function using the name (registered destination name) or address (fax number, E-mail address, or computer name). This function is convenient when there are too many registered destinations.

### Reference

For details, refer to the User's Guide CD.

# 3.6 Using a USB memory device

# 3.6.1 Printing data in a USB memory device

Data saved in the USB memory device can be printed. This function is useful when printing data created on a computer that is not connected to the network.

Available USB memory device

- Compatible with USB Version 2.0/1.1 interface
- Formatted in FAT32
- Without security function added, or with security function that can be turned off as required
- There is no upper limit for the memory size.

Available printing file types

- PDF, Compact PDF, JPEG, TIFF, XPS, Compact XPS, OOXML (.docx/.xlsx/.pptx), and PPML (.ppml/.vdx/.zip)
- Other file types are not supported on this machine.

# **Printing data**

1 Insert a USB memory device into the USB port of the machine.

### NOTICE

Use the USB connector on the side that is near the **Control Panel**. Do not use a USB device other than a flash-memory device.

2 Tap [Print a document from External Memory.].

5 Press the Start key.

**NOTICE** Do not disconnect the USB memory device during data printing.

### 3.6.2 Saving the scanned data in the USB memory device (External memory)

The data scanned on this machine can be saved to the USB memory device, so it is convenient when printing data created on a computer that is not connected to the network.

Available USB memory device

- Compatible with USB Version 2.0/1.1 interface
- Formatted in FAT32
- Without security function added, or with security function that can be turned off as required
- There is no upper limit for the memory size.

### Specifying functions to be permitted for external memory

Change the settings to save documents in the USB memory device.

- 1 Tap [Utility], and select [Administrator Settings] [System Settings] [User Box Settings].
  - → For information on the default administrator password, refer to page 5-51.

	Use the menu buttons or keypad to make a	selection.

- 5 If necessary, check the setting to save data.
  - → Tap [Check Setting] to check the setting.
  - → To change a file name, tap the file name or keyboard icon.

- → You can also check the setting using the keys displayed on the Touch Panel.
- → To change the setting, tap the desired key on the **Touch Panel**.

Settings	Description
[Simplex/Duplex]	Select whether to scan one or both sides of the original.
[Resolution]	Specify the scanning resolution.
[Color]	Select whether to scan the original in color or black and white mode.
[File Type]	Select the type of the file to save scanned data.
[Scan Size]	Specify the size of the original to be scanned.
[Separate Scan]	If all pages of the original cannot be loaded into the <b>ADF</b> at one time, change the setting to ON. You can load the pages of the original in several batches and handle them as one job. For details on using the separate scan function, refer to the User's Guide CD.

# 6 Press the Start key.

### NOTICE

Do not disconnect the USB memory device during data saving.

### 3.7.1 Guidance screen

This machine provides the guidance function to display the description of a function on the screen and view an operation procedure with moving images.

If you have any questions during operation, try to use this guidance function.

# Getting help on the currently displayed screen:

Select [Function] on the Help Menu to display the guidance screen.

**1** Press the **Guidance** key (default: Register key **2**).

2 Select a menu.

**3** Narrow down the information you want to know.

**4** Tapping [Go to function] opens the setting screen of a target function, enabling you to configure the settings immediately.

# Help Menu list

The Help Menu provides the following information:

Name	Description
[Function]	Tap this button to display the guidance menu that has been sorted ac- cording to the function names to be displayed in the screen.
[Search by Operation]	Tap this button to display operation examples and explanations of this machine sorted by function.
[Other Functions]	Tap this button to display the guidance menu of the functions and set- tings that make it easier to use this machine.
[Name and Function of Parts]	Tap this button to check the name or function of each part of this ma- chine.
[Service/Admin. Information]	Tap this button to display the service or administrator information, ad- ministrator name, extension number, and E-mail address.
[Consumables Replace/Pro- cessing Procedure]	Tap this button to check how to replace consumables or dispose of punch scraps.

# 3.8 Using the [Quick Security] function

# 3.8.1 [Quick Security]

[Quick Security] allows you to configure the settings for enhancing the security level of this machine. In order to use this machine securely, we recommend that you use the [Quick Security] function to configure the settings.

# **Required settings**

- 1 Tap [Utility], and select [Administrator Settings] [Forward] [Security Settings] [Forward] [Quick Security Setting].
  - → For information on the default administrator password, refer to page 5-51.

	Use the menu	outtons or keypad to make	e a select	ion.

Settings	Description
[Administrator Password]	Change the administrator password of this machine.
[USB Enable Settings]	Specify whether to permit a function that requires the USB Port.
[Password Rules]	Configure whether to enable the password rules. Once you enable it, the number of characters and text types that are available for passwords is restricted.
[Quick IP Filtering]	Allows you to restrict the devices that can access this machine using the IP address (IPv4/IPv6). The range of IP addresses for which access is to be restricted is specified automatically.
[PSWC Setting]	Select whether to use Web Connection.
[Security Warning Display Setting]	Select whether to display the security warning screen if the administrator password remains set to the default or if password rules are not satisfied.

→ When [Security Warning Display Setting] is set to [Display], the following security warning screen appears if the administrator password remains set to the default or if password rules are not satisfied. Tap [Set Now] to configure the [Quick Security] function.

Enable Password Rules and set the Administrator Password to improve security. The settings can be configured in the Quick Security Setting screen.		
Set Now	Set Later	
	ОК	

# Tips

- You can specify whether to display the [Quick Security] key on the main menu. This key is not displayed in the default state. To display the key, tap [Utility], and select [Administrator Settings] [System Settings] [Custom Display Settings] [Main Menu Default Settings] [Main Menu Key].
- In some areas, the [Quick Security] key is displayed on the main menu by default. However, if [Administrator Password] in [Quick Security Setting] was changed from the default setting and [Password Rules] is set to [Enable], the [Quick Security] key will not be displayed on the main menu. To display the key again, tap [Utility], and select [Administrator Settings] [System Settings] [Custom Display Settings] [Main Menu Default Settings] [Main Menu Key].
- For information on the default administrator password, refer to page 5-51.

# 4 Advanced Functions

# 4 Advanced Functions

# 4.1 Using advanced functions

# 4.1.1 What are advanced functions?

Various functions for further enhancement of the MFP operability are expressed as advanced functions in this manual.

This machine provides the following advanced functions.

### Tips

 To use an advanced function, you need to register i-Option or associate with the My Panel Manager application.

Name	Description	
PDF processing	<ul> <li>You can configure the required settings when converting scanned data to a PDF file.</li> <li>This requires the registration of i-Option LK-102 v3 or i-Option LK-110 v2.</li> </ul>	
Voice guidance	<ul> <li>You can use the voice guidance in order to assist operations or prevent the machine from operating incorrectly.</li> <li>This requires the registration of i-Option LK-104 v3.</li> </ul>	
Searchable PDF	<ul> <li>You can convert the scanned data to a searchable PDF file.</li> <li>This requires the registration of i-Option LK-105 v4 or i-Option LK-110 v2.</li> </ul>	
File Type Extension	<ul> <li>Supports functions such as a function that converts a file into a DOCX or XLSX type, a function that generates highly-functional and high quality data, and the E-mail RX Print function.</li> <li>This requires the registration of i-Option LK-110 v2.</li> </ul>	
ThinPrint	<ul> <li>Allows you to use this machine as ThinPrint Client (.print Client) when ThinPrint is enabled.</li> <li>This requires the registration of i-Option LK-111.</li> </ul>	
ТРМ	<ul> <li>You can use the Trusted Platform Module to enhance security by encrypting confidential information such as certificates and passwords of this machine.</li> <li>This requires the registration of i-Option LK-115 v2.</li> </ul>	
Serverless Pull Printing	<ul> <li>Allows you to execute print jobs, which were stored on a device from your computer, from any device in the same serverless pull printing group.</li> <li>This requires the registration of i-Option LK-114.</li> </ul>	
My Panel	<ul> <li>You can customize the Control Panel display of this machine for each user.</li> <li>This requires the association with My Panel Manager.</li> </ul>	
My Address	You can use the address book for personal use (My Address Book). <ul> <li>This requires the association with <b>My Panel Manager</b>.</li> </ul>	

Chapter 4

Advanced Functions

Δ

In addition, this machine supports advanced functions such as the barcode font, unicode font, and OCR font.

### Reference

For details, refer to the User's Guide CD.

### 4.1.2 Association with application

To use the My Panel or My Address function, you need to purchase **My Panel Manager** and enable the target function in the application side.

For details on how to enable such a function, refer to the My Panel Manager User's Guide.

### 4.1.3 Registering the i-Option license

To add an optional function to this machine, you need to purchase **i-Option** and register its license.

### Tips

- Check that this machine can be connected to the Internet.
- When enabling the **i-Option** function via the Internet, connect this machine to the License Management Server (LMS) through the proxy server used for remote diagnosis. For details on configuring the proxy server used for remote diagnosis, refer to the User's Guide CD.
- i-Option LK-110 v2 includes the function licenses for i-Option LK-102 v3 and LK-105 v4. If you purchase i-Option LK-110 v2, you do not need to purchase i-Option LK-102 v3 or LK-105 v4.

For details on how to purchase or install an optional unit, contact your service representative.

### **Preparation flow**

The following describes a preparation flow to use advanced functions. For details, refer to the relevant page.

This preparation is not required the second time or subsequent times.

- 1 Enabling the **i-Option** function (Administrator)
  - → Enable the **i-Option** function on this machine. For details, refer to page 4-3.
  - $\rightarrow$  If you cannot enable the function above, proceed to steps 2 and 3.
- 2 Registering the i-Option license (Administrator)
  - → Register the license on a dedicated Web site. For details, refer to page 4-5.
- 3 Enabling the **i-Option** function using the license (Administrator)
  - → Enter the license code to enable the function. For details, refer to page 4-7.
- 4 Configuring each function (Administrator)
  - → Configure the required settings for each advanced function. For details, refer to page 4-8.

### Reference

For details on the procedure, refer to the User's Guide CD.

### **Enabling the i-Option function**

Prepare at hand the token certificate supplied with **i-Option**.

- 2 Tap [Utility], and select [Administrator Settings] [Forward] [License Settings] [Install License] [Token Code].
  - → For information on the default administrator password, refer to page 5-51.

	Use the menu buttons or keypad to make a selection.

7 The license code and function code are issued.

### Tips

- The issued license code and function code are required to enable **i-Option**. You should write them down on a memo pad or print them out on paper by clicking [Print].
- You could also store them in your USB memory device. The license code input could be omitted by using a USB memory device to achieve a convenient operation.
- When using a USB memory device, insert the USB memory device and click [Download] to store the license code.

# Enabling the i-Option function using the license (Administrator)

Register the license and function codes in this machine.

This procedure is available when this machine cannot be connected to the Internet.

### By inputting the codes

- 1 Tap [Utility], and select [Administrator Settings] [Forward] [License Settings] [Install License] [Function/Licence Code].
  - → For information on the default administrator password, refer to page 5-51.

	Use the menu buttons or keypad to make a selection.

### **Configuring each function**

Configure the required settings for each advanced function.

### Reference

For details on the required setting items for each advanced function, refer to the User's Guide CD.

### 4.2.1 Required settings and procedures

The Web browser can be used on the **Touch Panel** of this machine.

This section describes how to display and print a Web page on the Touch Panel of this machine.

# Tips

- Check that this machine can be connected to the Internet.
- When enabling the Web browser function via the Internet, connect this machine to the License Management Server (LMS) through the proxy server used for remote diagnosis. For details on configuring the proxy server used for remote diagnosis, refer to the User's Guide CD.
- To use the Web browser, administrator settings are required in advance.

### **Preparation flow**

The following describes a preparation flow to use the Web browser function. For details, refer to the relevant page.

This preparation is not required the second time or subsequent times.

- 1 Enabling the Web browser function (Administrator)
  - → Enable the Web browser function on this machine. For details, refer to page 4-10.
  - $\rightarrow$  If you cannot enable the Web browser above, proceed to steps 2 and 3.
- 2 Registering the license (Administrator)
  - → Register the license on a dedicated Web site. For details, refer to page 4-11.
- **3** Enabling the Web browser using the license (Administrator)
  - → Enter the license code to enable the function. For details, refer to page 4-12.

### **Operation flow**

The following describes an operation flow. For details, refer to the relevant page.

- **1** Starting the Web browser
  - → For details, refer to page 4-16.
- 2 Displaying Web pages
  - → For details, refer to page 4-17.
- **3** Printing the currently displayed page or the linked file
  - → For details, refer to page 4-18.

### Reference

For details, refer to the User's Guide CD.

# Enabling the Web browser function

- 1 Tap [Utility], and select [Administrator Settings] [Network Settings] [Forward] (twice) [Web Browser Settings] [Web Browser Usage Settings].
  - → For information on the default administrator password, refer to page 5-51.

	Use the menu buttons or keypad to make a selection.

### Tips

- The issued license code is required to enable Web browser function. You should write them down on a memo pad or print them out on paper by clicking [Print].
- You could also store them in your USB memory device. The license code input could be omitted by using a USB memory device to achieve a convenient operation.
- When using a USB memory device, insert the USB memory device and click [Download] to store the license code.

### Enabling the Web browser using the license

Register the license code in this machine.

This procedure is available when this machine cannot be connected to the Internet.

### By inputting the codes

- 1 Tap [Utility], and select [Administrator Settings] [Network Settings] [Forward] (twice) [Web Browser Settings] [Web Browser Usage Settings].
  - → For information on the default administrator password, refer to page 5-51.

2 Select [ON], then tap [OK].

**3** When the screen shown below appears, tap [Function/License Code].

Bookmark	License is required to use the Web Browser. Please activate the Web Browser with License code or insert the external nemory that includes the function validation rite.

→ To change the setting, tap the desired key on the **Touch Panel**.

Settings	Description
[Simplex/Duplex]	Select whether to print one side or both sides of sheets of paper. To specify 2-sided printing, select the binding position.
[Finishing]	Configure the offset, punch, or staple setting for output paper.

#### **3** Press the **Start** key.

#### For the linked file

This machine provides a capability that prints a PDF file, XPS file, OOXML file, PPML file, or TIFF file.

**1** Select a link to the printed file.

#### **2** Tap [Print].

→ When linking to a PDF file, you can tap [View] to check its contents before printing the file.

**3** Specify the output paper.

→ To change the setting, tap the desired key on the **Touch Panel**.

Settings	Description
[Simplex/Duplex]	Select whether to print one side or both sides of sheets of paper. To specify 2-sided printing, select the binding position.
[Finishing]	Configure the offset, punch, or staple setting for output paper.

4 Press the Start key.

#### 4.3 Using the voice guidance

#### 4.3.1 Required settings and procedures

Using the voice guidance, you can confirm explanations of screens, keys, and key-related operations by voice.

The voice guidance is available on the Enlarge Display screen, Guidance screen, and Accessibility Settings screen, and useful to assist operations or prevent this machine from operating incorrectly.

The scan/fax screen allows this machine to read out the procedure via the voice guidance when you directly enter a fax number.

#### Tips

- You need to purchase **i-Option LK-104 v3** and register its license. For details, refer to page 4-3.
- You need to install the optional Local Interface Kit on this machine.
- To use the voice guidance, administrator settings are required in advance.
- When the optional **Keypad KP-101** is installed on this machine, you do not need to assign the voice guidance function to a Register key or to the slide menu. Also, the voice guidance can be operated by using the **Keypad**.

#### **Preparation flow**

The following describes a preparation flow to use the voice guidance. For details, refer to the relevant page. This preparation is not required the second time or subsequent times.

- **1** Enabling the voice guidance function (Administrator)
  - → Enable the voice guidance function on this machine. For details, refer to page 4-22.
- 2 Assigning the voice guidance function to a Register key or to the slide menu (Administrator)
  - → For details, refer to page 4-22.
  - → This setting is not required when the optional Keypad KP-101 is equipped on this machine.
- **3** Specifying the volume and speed
  - → Specify the volume or speed to read out. For details, refer to page 4-23.

#### **Operation flow**

The following describes an operation flow. For details, refer to page 4-24.

- **1** Starting the voice guidance
- **2** Playing the voice guidance
  - → Move the voice cursor to operate the voice guidance.
- **3** Ending the voice guidance

#### Enabling the voice guidance function

- 1 Tap [Utility], and select [Administrator Settings] [Forward] [Voice Guidance Settings].
  - → For information on the default administrator password, refer to page 5-51.

# 5 Frequently Asked Questions

## 5 Frequently Asked Questions

#### 5.1 Print

#### 5.1.1 Q1. Can I print data on an envelope or postcard?

A1. Yes, you can also print on envelopes and postcards.

Execute a print job on your computer then load envelopes or postcards into this machine to execute a print job on it.

#### **Operation procedure**

- 1 Open the file in the application, and click [File]. Then click [Print] from the menu.
- 2 Select this product from [Select Printer] (or [Printer Name]) then click [Preferences] (or [Properties]).
- 3 In [Original Size] on the [Basic] tab, select [Envelope] or [Postcard].
  - → Various sizes of envelopes are available. Select the correct paper size for the envelopes you have loaded.
  - → If [Postcard] is selected, [Paper Type] is automatically set to [Thick 3]. If [Envelope] is selected, [Paper Type] is automatically set to [Envelope].

4 Change the print settings as necessary, and press the **Start** key on the **Control Panel**.

#### 5.1.4 Q4. Can printing be restricted by user?

A4. Yes. You can set user authentication to restrict printing by user. That enables output control by user, leading to cost reductions.

#### How to set

- **1** Tap [Utility], then select [Administrator Settings].
- 2 Enter the password, then tap [OK].
- **3** Select [User Authentication/Account Track] [General Settings] [User Authentication].
- 4 Select [Authenticate], select an authentication method, then tap [OK].
  - → The authentication status may be [ON (MFP)], [External Server Authentication], [Main + External Server], [Enhanced Server Authentication], or [Main + Enhanced Server] authentication. For information on server-based user authentication, contact the server administrator.

Bookmark	You can specify the User Authentication method. For Main + External Server or Main + Enhanced Server, you can use the default authentication method.

#### 5.1.5 Q5. What types are available for printing finish?

A5. Various finish modes are available according to the options installed on this machine, such as stapling, punching and binding.

#### Staple

Stapling is enabled to bind at a corner or at two positions. This method is useful for printing handout material among other things.

Tips

Tips

**Center Staple** 

Punching is enabled for filing holes.

Punch

Frequently Asked Questions

REPORT

To use the Punch function, the optional Finisher and Punch Kit are required.

To use the Staple function, the optional **Finisher** is required.

REPORT

Center stapling is enabled for booklet-like finish.

## Tips

• To use the Center Staple function, the optional **Finisher FS-537 SD** or the optional **Finisher FS-536 SD** is required.

REPORT

REPORT

#### Fold

Half-folding, tri-folding, and Z-folding are enabled. This function is useful for direct mail and information notes.

#### **Tips**

• To use the Half-Fold or Tri-Fold function, the optional **Finisher FS-537 SD** or the optional **Finisher FS-536 SD** is required.

To use the Z-Fold function, the optional Finisher FS-537/FS-537 SD and Z Folding Unit are required.

#### **Operation procedure**

1 Open the file in the application, and click [File]. Then click [Print] from the menu.

- 2 Select this product from [Select Printer] (or [Printer Name]) then click [Preferences] (or [Properties]).
- **3** Select the check box for the desired finish on the [Finish] tab. If you have selected the [Staple], [Punch] or [Fold] check box, specify the quantity, positions and other necessary settings.
  - → The number of punched holes varies depending on the area you are in.

#### 5.1.6 Q6. Can I print on very long sheets of paper such as a banner?

A6. Yes, you can print on a banner or other long sheet of paper by using the Banner Printing function. The paper types below can be used for banner printing.

Paper width	Paper length	Paper weight
8-1/4 to 11-11/16 inches (210 to 297 mm)	18 to 47-1/4 inches (457.3 to 1200 mm)	33-13/16 lb to 55-7/8 lb (127 g/m <sup>2</sup> to 210 g/m <sup>2</sup> )

#### Tips

• When loading long sheets of paper, mount the Mount Kit MK-730 for long paper.

#### How to set

- **1** Tap [Utility] and select [Banner Printing].
- 2 Select [Allow], then tap [OK].

	To activate banner printing, choose [Allow].
Bookmark	Utility > Banner Printing

Exit	]

- 4 Open the file in the application, and click [File]. Then click [Print] from the menu.
- 5 Select this product from [Select Printer] (or [Printer Name]) then click [Preferences] (or [Properties]).
- 6 In [Original Size] or [Paper Size] on the [Basic] tab, select [Custom Size].

7 Enter values for [Width] and [Length] of the paper for printing, then click [OK].

8 Check the paper tray and paper type settings automatically changed, then click [Yes].

- 9 Click [OK].
- 10 Click [Print].

**11** Load paper for banner printing with the print side face down then tap [Complete].

Printing on the banner paper starts. Support the ejected banner paper by hand.

 $\rightarrow$  To continue banner printing, execute printing from the computer.

- **12** Tap [Exit].
- **13** Tap [Yes].

#### 5.2 Scan

#### 5.2.1 Q1. Can frequently used destinations be registered?

A1. Yes. You can register frequently used destinations in the address book. For details, refer to page 3-58.

You can also put a number of one-touch destinations in one group and register them as a group. For details, refer to page 3-67.

Once you have registered a one-touch or group destination, you can recall it by simply tapping the assigned key. For details, refer to page 3-69.

#### Tips

- You can register up to 2000 one-touch destinations in the address book.
- You can register up to 100 group destinations in the address book.
- To register a group destination, members must have been registered as one-touch destinations.

Frequently Asked Questions

#### 5.3 Fax

#### 5.3.1 Q1. Can I check fax transmission and reception logs?

A1. Yes. You can print out transmission and reception logs as a report.

Reports can be prepared for scan and send logs, fax communications (transmission and reception logs), fax transmission logs and fax reception logs.

#### **Operation procedure**

- 1 Tap [Job List].
- 2 Specify a report type in [Report Type] on the [Comm. List] tab, and tap [Selection Confirm], then press the **Start** key.
  - → Set [Output Limit] to specify the number of transmission and reception records to print.

Active	Log	Comm.	List		
No. Destination	Start Time	TXTime	No. of Cop	Result	
0001 tokyo-office	05:31	00:07	1	ок	Report Type Scan

0004 fax3	05:40	00:07	1	ОК	Fax RX
					Output Limit
					100 Comm.
					All
					Selection

#### 5.3.2 Q2. Can I collectively send data to multiple destinations?

#### A2. Yes, you can.

It eases the operation to register a group that contains a number of destinations beforehand.

The maximum number of destinations that you can specify for a single transmission depends on how the destinations are set.

Item		Specifications		
When using the address book		500 addresses Up to 30 User Boxes		
When directly entering	E-mail	5 addresses		
addresses	User Box	1 User Box		
	Fax	100 addresses		

#### **T**ips

• When registering a group, even destinations of different types can be registered in one group.

#### Operation procedure: Selecting multiple addresses from the address book

1 Load the original.

- 2 Tap [Scan/Fax] and select a destination.
  - → You can select more than one one-touch destination from the address book. Tap [No. of Addr.] to display the broadcast destination list and check or delete the specified destinations.
  - → To cancel the destination setting, tap the Address Book key for the destination to be canceled.
  - → Select an index to narrow down destinations to display.
  - → Specify [Add. Type] to narrow down the types of destinations to display.
  - → Tap [Check Setting] to check detailed information on the destinations you have set or to cancel destinations.
  - → You can also select a group.

- 5 Enter the sender name, then tap [OK].
- 6 Repeat Steps 4 and 5 to complete entry of all sender names.
  - → You can register up to 20 sender names.
  - → To edit a registered sender name, select a sender name and tap [Edit], change the sender name and tap [OK].
  - → To delete a registered sender name, select the sender name and tap [Delete], select [Yes], then tap [OK].
  - → To set the default sender name, select a sender name and tap [Set as Default].

#### Tips

 If [Administrator Settings] - [Fax Settings] - [TX/RX Settings] - [Individual Sender Line Setup] is set to [ON] while multiple lines are used, the default sender name can be specified for each line.

#### How to set: Selecting a sender name upon fax transmission

- 1 Load the original.
- 2 Tap [Scan/Fax] and select a destination.
- **3** Tap [Application] and select [Fax Header Settings].
- 4 Select a sender name to print on the fax and tap [OK].

5 Press the Start key to start fax transmission.

Chapter 5

# 5.3.4 Q4. Can I avoid expensive communication charges using the network?

A4. Yes. Use the Internet Fax function to send an E-mail message with an attachment containing the scanned data merely at expenses for online communications via the Internet.

Within your intranet, the IP Address Fax function can be used. For IP Address Fax, specify either the IP address, host name or E-mail address of the destination fax machine to directly send a fax to that destination. No mail server is required.

#### Tips

- To use the Internet Fax and IP Address Fax functions, ask your service representative to configure settings. For details, contact your service representative.
- To use the Internet Fax function, this machine must be connected to the network. In addition, you must have an environment enabled for E-mail transmissions and receptions.
- To use the IP Address Fax function, the optional Fax Kit is required.
- The IP Address Fax function is only available between our models supporting the function or between devices matching the DirectSMTP standard. We do not give operational warranties for devices other than the models supporting the function.

# **Operation procedure: Sending an Internet fax**

- 1 Load the original.
- 2 Tap [Scan/Fax] and select [Internet Fax] from [Direct Input].
  - → If you have registered one-touch destinations for the Internet Fax function, you can select them from [Address Book].

**3** Enter the E-mail address of the destination in [Address] and select a compression format, paper size and resolution supported by the recipient machine from [Receiver RX Ability].

# 5.3.5 Q5. How can I avoid printing out unwanted faxes?

A5. Save received faxes in a User Box without printing them out then print out only the faxes you need.

# Operation procedure: Configuring to save received faxes in a User Box

- **1** Tap [Utility], then select [Administrator Settings].
- **2** Enter the password, then tap [OK].
- **3** Select [Fax Settings] [Function Settings] [Memory RX Setting].
- 4 Tap [Yes], enter the password for processing faxes saved in a User Box using the **Keypad**, then tap [OK].

# **Tips**

 If [Administrator Settings] - [Fax Settings] - [TX/RX Settings] - [Individual Receiving Line Setup] is set to [ON] while multiple lines are used, you can specify whether to use the Memory RX function for each line.

# How to set: Printing faxes saved in a User Box

1 Tap [User Box].

2 From [System], select [Memory RX].

- **3** Enter the password, then tap [OK].
- 4 Select a file then tap [Print].
  - → You can also long-tap the target file to display the menu icon, then drag and drop it to L to get the same result.

**5** Check the message, then tap [Yes].

The fax is printed and automatically deleted from the Memory RX User Box.

## 5.3.6 Q6. Can I forward an incoming fax?

A6. Yes, you can forward a received fax to another fax machine, a computer or an E-mail address by registering forwarding destinations beforehand.

#### How to set

- **1** Tap [Utility], then select [Administrator Settings].
- 2 Enter the password, then tap [OK].

Chapter 5

- **3** Select [Fax Settings] [Function Settings] [Forward TX Setting].
- **4** Tap [Fax].

5

**5** Select [Yes] and configure the respective items for forwarding faxes.

[Select Line]	If multiple lines are used, select the line used to send a fax.

**6** Tap [OK].

If [Administrator Settings] - [Fax Settings] - [TX/RX Settings] - [Individual Receiving Line Setup] is set to [ON] while multiple lines are used, you can specify whether to use the Forward TX function for each line.

# 5.3.7 Q7. Can I directly fax a file on my computer without leaving my desk?

A7. Yes. You can fax a file in the same manner as you print out a file created on your computer.

The following preparatory steps are required:

- Installing the fax driver to the computer
- Connecting this machine to the network

#### **Operation procedure**

- **1** Open the file in the application, and click [File]. Then click [Print] from the menu.
- 2 Select a fax driver from [Select Printer] (or [Printer Name]) then click [Print] (or [OK]).
- **3** Enter the name and the fax number of the destination, then click [Add Recipients].
  - → You can also specify the destination by clicking [Add from Address Book] and selecting one from registered one-touch destinations.
  - $\rightarrow$  To specify more than one destination, repeat step 3.
  - → To delete a destination you have specified, select the destination to delete from [Recipient List] and click [Delete From List].

# 5.4 Copy

5

# 5.4.1 Q1. Can I copy on an envelope or postcard?

A1. Yes, you can also copy on an envelope and postcard.

Load envelopes or postcards into the **Bypass Tray**, then specify the paper type and paper size of the Bypass Tray.

## **Operation procedure: Copying on envelopes**

Up to 10 envelopes can be loaded into the Bypass Tray.

- 1 Load the original.
- 2 Load envelopes into the **Bypass Tray** with the print side facing down.
  - → Insert envelopes into the tray until their edges are pressed against the back.

#### NOTICE

When loading envelopes into the Bypass Tray, note the following points.

→ When loading envelopes, remove air from them, and securely press along the flap fold line. Otherwise, it will result in an envelope wrinkle or paper jam.

→ Do not use envelopes that have glue or release paper on the flap or the part covered by the flap on the body. Otherwise, the machine may be damaged or a failure may occur.

**3** Slide the Lateral Guide to fit the size of the loaded paper.

#### NOTICE

When using the **Bypass Tray**, note the following points.

→ Do not put spare envelopes in the Bypass Tray. Doing so causes a size detection error.

The screen for selecting the paper type and paper size appears.

4 Select [Envelope] from [Paper Type].

The screen for selecting the envelope size appears.

- 5 Select the envelope size from [Envelope/4 × 6] ([Envelope/A6 Card]).
  - → Various sizes of envelopes are available. Specify the correct paper size for the envelopes you have loaded.

#### NOTICE

When loading envelopes with flaps opened, also select the standard size that matches them. You do not have to measure the size of the envelope with the flap opened to set the size as a custom-sized envelope.

- 6 Tap [Close].
- 7 Press the **Start** key to start copying of the original on envelopes.

#### **Operation procedure: Copying on postcards**

Up to 20 postcards can be loaded into the Bypass Tray.

- 1 Load the original.
- 2 Load postcards into the Bypass Tray with the print side face down.
  - → Insert postcards into the tray until their edges are pressed against the back.

#### NOTICE

When loading postcards into the Bypass Tray, note the following points.

→ When loading curled postcards, uncurl the postcards as shown in the figure in advance.

**3** Slide the Lateral Guide to fit the size of the loaded paper.

#### NOTICE

When using the Bypass Tray, note the following points.

→ Do not put spare postcards in the **Bypass Tray**. Doing so causes a size detection error.

The screen for selecting the paper type and paper size appears.

**4** Tap [Envelope/4 × 6] ([Envelope/A6 Card]) from [Paper Size].

- 6 Tap [Close].
- 7 Press the **Start** key to start copying of the original on postcards.

## 5.4.2 Q2. Can I print on custom size paper?

A2. Yes, you can. Load custom size paper into the **Bypass Tray** and specify the bypass tray on the paper screen of copy mode.

It is a good idea to have the frequently used custom size of paper registered in the memory.

## Operation procedure: Copying on paper of a custom size

- 1 Load the original.
- 2 Load custom size paper into the **Bypass Tray** with the print side facing down. The screen for selecting the paper type and paper size appears.
- **3** Select one from the paper type options, then tap [Custom Size].

Paper Type Standard User	Paper		a 117	
Standard Paper			Paper Size

Duplex 2nd Side	Alter Paper Thickness		🔲 Wide Paper 🕨	

Chapter 5

4

- In [Custom Size Settings], specify the paper size by entering values for the lengths along [X] and [Y], then tap [Close].
  - → To specify a size registered in the memory, select the desired size from [Registered Paper Sizes], then tap [Recall].

**5** Press the **Start** key to start copying of the original.

## Operation procedure: Registering a custom size of paper in memory

- 1 Tap [Copy].
- 2 Tap [Paper] and select the bypass tray. Then, tap [Change Tray Setting].

**3** Tap [Specify Paper Size].

4 Load a single sheet to be measured on the Original Glass.

#### NOTICE

If a sheet is loaded on the **Original Glass**, leave the **Original Cover** open.

Chapter 5

#### 5 Press the Start key.

5

When measurement is completed, the screen for confirming the measurement result is displayed.

6 Tap [Store Size].

- 7 In [Registered Paper Sizes], select the key of the memory to register data in.
  → To change the name of the selected memory key, tap [Edit Name].
- 8 Tap [OK].
- **9** To set the detected size to the paper size, tap [Yes].

# Operation procedure: Recalling the custom size registered in memory

- 1 Tap [Copy].
- 2 Tap [Paper] and select the bypass tray. Then, tap [Change Tray Setting].

**3** Tap [Custom Size].

4 Select the paper size to recall from [Registered Paper Sizes], then tap [Recall].

# 5.4.3 Q3. Can I check the finish before starting copying?

A3. Yes, you can check the finish by outputting a proof copy.

You check either by referring to a preview image or by outputting just one copy for checking how it is actually finished.

Using a proof copy helps preventing copy errors.

# How to set: Checking the finish with a preview image

- 1 Load the original.
- **2** Tap [Copy].
- **3** Specify copy settings and the number of copies as necessary, then press the **Preview** key (default: Register key **4**).
- 4 Tap [Preview on Screen], select the original loading direction, then tap [Start].

- **5** Check the preview display, and rotate the page or change settings as required.
  - → To continue scanning originals, load the original, then tap [Start Scan].
  - → To start copying, tap [Print] or press the **Start** key.
  - → To enlarge the preview image, double-tap the image.
  - → To enlarge or reduce the preview image, pinch-in or pinch-out the image.
  - → To rotate the image 180 degrees, rotate the preview image.
  - → If a multi-page original has been scanned, you can flick the preview image to feed pages forward or backward.
  - → If you tap K, you can display or hide the setting key. The setting key allows you to enlarge or rotate a page.

# 5.4.4 Q4. Can I easily copy various cards such as an insurance card or driver license card?

A4. Yes, you can copy the front and back sides of a card, side by side, on the same side of one sheet of paper.

# **Operation procedure**

**1** Place a card on the **Original Glass**.

- **2** Tap [Copy].
- 3 Tap [Paper], select a paper tray to load paper into in order to copy a card, then tap [Close].
  → If you specify [Card Shot], you must specify a paper tray other than [Auto].

4 Tap [Application], then select [Card Shot].

**5** Tap [ON], then configure each item so that it corresponds with the finishing image.

Settings	Description
[Original Size]	Enter the size of a card to be copied. Alternatively, you can recall the preregistered size from [Registered Paper Size]. After you have entered the size, select a key in [Registered Paper Size], and tap [Register]. Then the size you have entered is regis- tered in the memory.
[Registered Paper Size]	Displays the sizes registered in memory. When you call a registered size from the memory, tap the key of the desired registration name, then tap [Recall]. To change a registration name, select a desired key, then tap [Change registered size name].
[Layout]	Select how to arrange the front and back sides of a card on paper.
[Zoom]	<ul> <li>Select a zoom ratio for copying.</li> <li>[Full Size]: Copy by enlarging according to the paper size.</li> <li>[x1.0]: Copy with the same size as the card.</li> </ul>

## 6 Tap [OK].

7 Press the Start key.

The front side of the card is scanned.

- 8 Turn the card over, and place it on the Original Glass.
- 9 Press the Start key.
- **10** After both sides of the card have been scanned, tap [Finish].

**11** Press the **Start** key to start to copy the scanned card.

# 5.5 User Box

# 5.5.1 Q1. Can I create a User Box, or print or download a file in a User Box from my computer?

A1. Yes. Use **Web Connection** or the Windows file sharing function to create a User Box or manage files in a User Box without leaving your desk.

## Tips

- To use the Windows file sharing function, use **Web Connection** to configure the SMB server setting and create a Public User Box to share the file in advance. For details, refer to the User's Guide CD.
- The Windows file sharing function is available only for files saved in a Public User Box using the User Box mode or the scan/fax mode.

# **Operation procedure: Using Web Connection**

- Start the Web browser.
- 2 Enter the IP address of the machine in the URL field, and then press [Enter].
  - → You can check the IP address from [Utility] [Device Information].
  - → When user authentication or account tracking is enabled, fill in the [User Name] and [Password], then click [Login].
- **3** Click the [Box] tab.
- 4 Complete the following steps:
  - → Create/edit/delete a User Box.
  - → Print/send a file in a User Box.
  - → Download a file in a User Box to your computer.
  - → Copy/move/delete a file in a User Box.

# Tips

- The file size of up to 400 MB can be downloaded to your computer at one time.
- If the file size exceeds 400 MB, specify the page range setting before downloading to limit the file size to download at one time to less than 400 MB.

# **Operation procedure: Using the Windows file sharing function**

- **1** Open the network on your computer.
- **2** Find the host name of this machine.
  - → To view the host name of this machine, select [Utility] [Administrator Settings] [Network Settings]
     [SMB Settings] [SMB Server Settings] [SMB Server Common Settings] [SMB Host Name].

- **3** Open the shared folder of this machine to search for the target file.
  - → The shared folder of this machine is named in the format, "(9-digit User Box No.)\_(User Box name)".
  - → If the ID and password are required to open the shared folder, enter the following information. ID: User Box number

Password: Password specified for the Public User Box

- **4** Complete the following steps:
  - → Download a file to your computer.
  - → Copy or delete a file.

# 5.6 Other

# 5.6.1 Q1. Can more than one computer use the same settings for the printer driver ?

A1. Yes. The same settings can be configured using Driver Packaging Utility.

The **Driver Packaging Utility** can be used to create an install package with various settings registered for a printer driver.

First, the administrator uses the **Driver Packaging Utility** to create an install package for the printer driver. Next, simply execute that install package on a computer to apply identical settings to, and the printer driver configured with the same settings is installed.

# **Operation procedure : Preparing for an install package**

- 1 Insert Driver & Utilities DVD in the DVD drive.
- 2 Select [PageScope Utilities].
- **3** Download the **Driver Packaging Utility** file from the download page to a desired location.
- 4 Double-click the **Driver Packaging Utility** file you have downloaded and decompress it to a desired location.

# **Operation procedure: Creating an install package**

- **1** Double-click [DPU.exe] in the [DPU] folder.
- 2 Select a language and click [Agree].
- **3** Click [Edit] and click [Add Printer] on the menu.
- 4 Select a reference printer for the install package, then click [OK]. Select a printer that satisfies the following requirements:
  - → The printer is supported by the **Driver Packaging Utility**.
  - → The printer has already been installed on the computer you are currently using.
  - → The printer is to be connected to a TCP/IP or Internet port.
- 5 On the [Printer] tab, check that the name of the printer selected in Step 4 is displayed in [Printer Name].
- 6 On the [Preferences], select [Copy from this printer], then check the [Set as default printing preferences] box.
- 7 On the [Driver] tab, click [Browser] for the [Path to Printer Driver] to specify the folder containing the printer driver selected in Step 4.
- **8** Click [OK].
- **9** Click [Configuration] and click [DPU Folder] on the menu.
- **10** In [Common Folder Path] or [Individual Folder Path], specify the path to the location to save the install package to, then click [OK].
  - → Click [Browser] to specify the location in a folder tree.
- 11 Click [File] [Save As].
- **12** Configure settings for respective items and click [Save].

Settings	Description
[DPU Folder]	Select a desired location for saving the install package.

Settings	Description
[Package Name]	Enter a name for the install package. A folder is created for the install package under the name entered here.
[Comment]	Enter description of the install package.
[Switch to the following user when executing the package]	Check the box and fill [User Name], [Password] and [Domain Name], and the user is switched to the specified user when the install package is executed.
[Destination for saving package log]	Specify the path to the location for saving install package creation logs. Click [Browser] to specify the location in a folder tree.
[Open the folder con- taining the package file.]	Check the box if you wish to display the folder for saving the install package when saving it.

- **13** After the creation of the install package is completed, click [OK].
- **14** Distribute the install package created to users sharing the printer driver settings.
  - → In Driver Packaging Utility, click [Configuration] [Package File] to display the folder storing the install package.

## Operation procedure: Executing the install package

- 1 Copy the folder for the install package to a desired location.
- 2 Double-click the execution file of the install package you have created.
- **3** Select a language and click [Agree].
- 4 Select a package to install and click [Start].
- 5 After the installation of the printer driver is completed, click [Finish].
- **6** Open the properties for the installed printer driver and check the settings.
  - → For the display of the properties, refer to User's Guide CD.

#### 5.6.2 Q2. Can I restrict available functions by user?

A2. Yes. With user authentication enabled, you can restrict functions available by user.

#### How to set

- **1** Tap [Utility], then select [Administrator Settings].
- 2 Enter the password, then tap [OK].
- 3 Select [User Authentication/Account Track] [User Authentication Settings] [User Registration].
- 4 Select a user whose access to functions needs to be limited, then tap [Edit].

5 Tap [Function Permission/Authority] - [Function Permission] to set the limit for the respective functions.

Settings	Description	
[Copy]	To allow copying, select [Allow]. To prohibit copying, select [Restrict].	
[Scan]	To allow using the full scan function, select [Full Color/Black]. To allow scan- ning in black and white scan, select [Black Only]. To prohibit scanning, select [Restrict].	
[Fax]	To allow using the full fax function, select [Full Color/Black]. To allow only black-and-white fax transmission, select [Black Only]. To prohibit fax transmission, select [Restrict].	
[Print]	To allow printing, select [Allow]. To prohibit printing, select [Restrict].	
[User Box]	To allow operating files in User Boxes, select [Allow]. To prohibit operating files in User Boxes, select [Restrict].	
[Print Scan/Fax TX]	To allow printing of outgoing files, select [Allow]. To prohibit printing of outgo- ing files, select [Restrict].	
[Save to External Mem- ory]	To allow saving of data to an external memory device, select [Allow]. To pro- hibit saving of data to an external memory device, select [Restrict].	
[External Memory Doc- ument Scan]	To allow loading data from an external memory device, select [Allow]. To pro- hibit loading data from an external memory device, select [Restrict].	
[Manual Destination In- put]	To allow manual entry of destinations, select [Allow]. To prohibit manual entry of destinations, select [Restrict].	
[Web Browser]	To give permission to use Web browser, select [Allow]. To give no permission to use Web browser, select [Restrict].	

# 6 Tap [OK].

- 7 Tap [Close].
- 8 Тар [ОК].
- **9** Repeat steps 4 to 8 to restrict available functions by user.

1

## Tips

If an attempt is made to execute a restricted function, a message appears notifying the user that it is prohibited.

Chapter 5

Frequently Asked Questions

# 5.6.3 Q3. Can I change the keying and operation sounds of this machine?

A3. Can delete the operation sound of the Touch Panel, and adjust the sound type and volume.

#### How to set

5

- **1** Tap [Accessibility] and select [Sound Setting].
- **2** To set whether to output keying and other sounds, select [Sound Setting] and set whether to output respective sounds.

You can specify the sound setting			
Sound Setting			
All Sounds	On	Off	
Confirmation Sound	On	Off	
Succesful Completion Sound	On	Off	
Completed Preparation Sound	On	Off	
Caution Sound	On	Off	
↓ 1/2 ↑		ОК	

Settings	Description	
[All Sounds]	Specify whether to output all sounds.	
[Confirmation Sound]	Set whether or not to output a sound notifying that an operation takes place on the <b>Control Panel</b> or <b>Touch Panel</b> .	
[Successful Completion Sound]	Set whether or not to output a sound notifying successful completion of an operation.	
[Completed Prepara- tion Sound]	Set whether or not to output a sound notifying that this machine is ready for operation.	
[Caution Sound]	Set whether or not to output a sound notifying the need for part replacement or occurrence of an error.	
[Deletion Sound]	Set whether or not to output a sound when Document or Job is deleted.	
[Authentication Sound]	Set whether or not to output a sound in association with the authentication re- sult when logging in.	

## **3** Tap [OK].

- 4 Tap [Sound Type/Volume Setting], and set the sound type and volume.
  - → The sound type and volume can not be set for the item where the [Sound Setting] is set to [No].

Select sound type and volume. If Batch is selected, the individual settings will be overwritten.

# Tips

bizhub 558/458

- When the Control Panel of this machine is remote-controlled from an Android/iOS terminal using Remote Access, tap [Alter Settings Individually] to display [Device Sound] as a sound type option. Tapping [Device Sound] enables you to specify the Android/iOS terminal output sound from the list of device sound files.
- When [Operation Confirmation Sound] [Window Pop-Up Sound] is set to [On], no sound is output if the pop-up window is not displayed in animation view. For details, refer to the User's Guide CD.

#### 5.6.4 Q4. User authentication seems to be enabled on this machine. How can I be authenticated and allowed to operate this machine?

A4. Check with the administrator whether you are a user registered in this machine.

If you are a registered user, obtain the user name and password from the administrator, perform user authentication using this machine, printer driver, and log in to this machine.

Otherwise, log in to this machine with public users' privileges.

# How to set: Getting authenticated as a user on this machine

1 Enter the [User Name] and [Password] registered in this machine and tap [Login]. When successfully authenticated, you are allowed to operate this machine.

		Job List

Frequently Asked Questions

# 5.6.5 Q5. The power is input all day. Is there any way to alleviate concerns about electricity charges?

A5. If no operation takes place for a certain period of time, the power-saving function starts automatically, and the machine enters the power-saving mode.

Using the weekly timer function automatically switches this machine to the normal mode and power save mode at the pre-specified time.

The weekly timer function provides the following functions:

Function	Description
[Time Settings]	Specify the time for switching to the power save mode and the time for return- ing to the normal mode for each day of the week. For example, you can set it up so that the power turns off at the close of business on work days and omit settings for weekends since no one uses the machine.
[Date Settings]	Configure the days you want to apply the weekly timer to one by one. This function is useful when the schedule for holidays is irregular or when this machine must be powered on or off on a specific day regardless of the setting in [Timer Settings].
[Select Time for Power Save]	Specify the time period to temporarily switch to the power save mode. This al- lows you to temporarily switch to the power save mode in the time period such as a lunch break in which this machine is inactive.
[Password for Non- Business Hours]	Using the weekly timer restricts the use of this machine in the Power Save mode with a password.

#### How to set

- **1** Tap [Utility], then select [Administrator Settings].
- 2 Enter the password, then tap [OK].
- **3** Select [System Settings] [Weekly Timer Settings] [Weekly Timer ON/OFF Settings].

- 4 Select [ON], select [ErP Auto Power OFF] or [Sleep], then tap [OK].
  - → Select [ErP Auto Power OFF] when there is no need to receive a job in the power save mode and you wish to cut off power consumption whenever you can.
  - → Select [Sleep] if a Fax Kit is installed and you need to receive a job even in the power save mode.

	Select ON or OFF for the Weekly Timer. In ErP Auto Power Off mode, the MFP enters Power Save move but cannot perform any jogs

#### 5.6.6 Q6. What action should be taken if the administrator password is lost?

A6. The administrator password is set to [1234567812345678]by factory default. Try this password if the administrator password has not been changed.

Change the administrator password periodically.

If it has been changed, contact your service representative.

# **6** Troubleshooting

# 6 Troubleshooting

# 6.1 Main messages and remedies

#### 6.1.1 When a message appears to replace consumables or carry out cleaning

A message appears indicating the time(s) that expiring consumables used in this machine should be replaced. Also, a message appears when the **Slit Scan Glass** is dirty.

Replace consumables mentioned in the displayed message or clean the Slit Scan Glass.

A message recommending that parts be replaced indicates that certain consumables are running out. Although you can still continue to print for a while after the message is displayed, it is advisable to promptly prepare replacement consumables.

- For **Toner Cartridge**: [Toner is low. Replace when indicated.] appears, followed by [Replace Toner Cartridge.]. Replace the Toner Cartridge based on the maintenance contract.
- For **Staple Cartridge/Saddle Staple Cartridge**: When the message [Replace the Staple Cartridge.] or [Replace the Saddle Staple Cartridge 1 or 2.] appears, replace the staples.
- For **Drum Unit**: When the message [The Drum Unit needs to be replaced soon.] or [The Drum Unit needs to be replaced.] appears, replace it based on the maintenance contract.
- For **Developing Unit**: When the message [The Developing Unit needs to be replaced.] appears, contact your service representative.
- For **Waste Toner Box**: When the message [Waste Toner Box needs to be replaced.] appears, replace it based on the maintenance contract.

Contact your service representative if the messages continue to appear even after replacement or cleaning has been carried out.

There may be a paper jam occurring in sections other than those indicated on the **Touch Panel**. Check the sections again not shown on the **Touch Panel**.

Check the following items:

- Check for any pieces of paper left in the back of the section indicated on the **Touch Panel**. If the paper cannot be easily removed, do not continue; instead contact your service representative.
- Once again, open and close the door at the section with the location number indicated on the **Touch Panel**. This action may clear the message.

Contact your service representative if the paper jam indication persists even after you have checked.

## 6.1.3 When an error message appears

When an error is detected, the following message appears. Take the appropriate action according to the message displayed on the screen. If you cannot resolve the error, write down the [Trouble Code], and contact your service representative with the power plug disconnected from the power outlet.

In normal circumstances, the phone number and fax number for your service representative appear in the center of the screen.

An internal error has occurred. Turn the main switch OFF and ON. If the trouble code appears again, contact your Service Representative.	Job List

#### NOTICE

If a defective part can be separated in order to be able to continue operations after a problem has been detected, [Continue] or [Recover Data] is displayed. To continue operations, select any key. However, the problem has not been resolved, so contact your service representative immediately.

# 6.1.4 When [Stabilizing image.] appears

This automatically performs a function to adjust printing quality in order to maintain a certain level of color reproduction quality. This "printing quality adjustment" is referred to as "image stabilization".

Image stabilization is performed while a large number of copies are being output or the temperature or humidity inside the machine has changed.

Upon completion of image stabilization, printing is automatically resumed. Wait for a moment.

In case image stabilization does not finish after a short while, contact your service representative.

#### NOTICE

You cannot interrupt or prohibit image stabilization.

#### Reference

To perform image stabilization on a voluntary basis, refer to the User's Guide CD.

# 6.2 When printing quality has deteriorated

# 6.2.1 Cleaning the Print Head Glass

Printing quality deteriorates if the **Print Head Glass** is dirty. If this occurs, clean the **Print Head Glass** according to the following procedure.

**1** Open the **Lower Front Door** of the machine.

2 Release the Waste Toner Box Lock Lever, then remove the Waste Toner Box.

**3** Remove the **Printhead Cleaner** from the **Lower Front Door** of this machine.

- 4 Slowly insert the **Printhead Cleaner** all the way to the back end of the **Print Head Glass**, and then slowly pull it out.
  - → Repeat this operation for approximately three times.

- 5 Mount the **Printhead Cleaner** onto the **Lower Front Door** of this machine.
- 6 Install the Waste Toner Box.
- 7 Close the Lower Front Door of the machine.

# 6.3 When the machine cannot be powered on

This machine has two power sources. Check the Main Power Switch and the Power key for the status.

- Check whether the power plug of this machine is firmly plugged into the power outlet. Also check that the breaker has not tripped.
- Check to see that the **Main Power Switch** and the **Power** key are turned ON.

In case the machine cannot be powered on even after checking, contact your service representative.

# 6.4 When the Touch Panel is not visible

If a certain length of time has elapsed without any operations being carried out on this machine, the **Touch Panel** may turn off.

Check the following items:

 Tap [Accessibility] and select [Brightness Adjustment], and select [Low] or [High] to adjust the contrast for the **Touch Panel**.

You can adjust th	e LCD Brightness		•
Brightness Adj	ustment		
-	Low	High	
			Close

- Touch the **Touch Panel**. In Power Save (Low Power/Sleep) mode, this machine returns from Power Save mode when the **Touch Panel** is touched or a key on the **Control Panel** is pressed, and the **Touch Panel** appears normally.
- On the **Control Panel**, press the **Power** key. If the Weekly Timer setting has put the machine in Erp Auto Power off mode, press the **Power** key to display the **Touch Panel**. To use it outside the preset operating hours, follow the on-screen instructions.

• Check to see that the Main Power Switch and the Power key are turned ON.

In case the Touch Panel does not appear even after checking it, contact your service representative.

# 6.5 When a message appears to replace consumables or carry out cleaning

#### When staples in the Finisher have run out

When staples in the Finisher have run out, a message appears to prompt you to make replenish them.

Take action while referring to the label inside the machine.

	Quick C Iy to Copy e the Staple C	/	]		No. of Sets	Eunction Search	Job List 10/05/2015 04:18 Memory 100 %

#### When it is time to replace a Toner Cartridge

When it is time to replace a **Toner Cartridge**, a replacement prompt message appears. Replace it based on the maintenance contract. Tap [Start Guidance] to display the replacement procedure on the screen and check it.

### When it is time to replace a Drum Unit

When it is time to replace a **Drum Unit**, a replacement prompt message appears. Replace it based on the maintenance contract. Tap [Start Guidance] to display the replacement procedure on the screen and check it.

#### NOTICE

- By the factory default status, this message is displayed only in some area.
- The settings by the service representative are required to display a message about Drum Unit. For details, contact your service representative.

# When it is time to replace a Developing Unit

When it is time to replace a **Developing Unit**, a message appears to prompt you to contact your service representative. If the message appears, contact your service representative.

- By the factory default status, this message is displayed only in some area.
- The settings by the service representative are required to display a message about **Developing Unit**. For details, contact your service representative.

# When the Waste Toner Box is full

When the **Waste Toner Box** is full, a message appears to prompt you to replace it (at replacement by user). Tap [Start Guidance], then follow the displayed guidance to take an action.

### 6.5.1 Replacing a Toner Cartridge

#### Tips

- Shake a new Toner Cartridge well, approximately 5 to 10 times, before installing it.
- Do not forcedly open or disassemble a Toner Cartridge (toner container).
- Do not forcedly remove or dispose of toner that remains in a **Toner Cartridge** (toner container).

#### **MWARNING**

• Do not throw toner or a container that contains toner (e.g., toner cartridge and developing unit) into an open flame. The hot toner may scatter and cause burns or other damage.

#### **≜**CAUTION

bizhub 558/458

- Do not leave toner-related parts (e.g., toner cartridge and developing unit) within easy reach of children. Licking any of these parts or ingesting toner could damage your health.
- Do not store toner-related parts (e.g., toner cartridge and developing unit) near devices susceptible to magnetism, such as precision equipment and data storage devices, otherwise they may malfunction. They could cause these products to malfunction.
- Do not force open the toner-related parts (e.g., toner cartridge and developing unit). If toner tumbles from the toner bottle, take utmost care to avoid inhaling it or even getting skin contact.
- If toner lands on your skin or clothing, wash thoroughly with soap and water.
- If you inhale toner, move to a place with fresh air and gargle with a lot of water repeatedly. Should you get symptoms such as coughing, seek medical advice.
- If you get toner into your eyes, immediately rinse them with running water for over 15 minutes. Seek medical advice if irritation persists.
- If you swallow toner, rinse out your mouth and drink a few glasses of water. Seek medical advice if necessary.

# 6.5.2 Replacing a Waste Toner Box

#### Tips

- After removing the **Waste Toner Box**, quickly install the cap. If the **Waste Toner Box** is tilted, waste toner may spill.
- Your service representative will collect your used **Waste Toner Box**. Place a cap on it, put it in a plastic bag, and store it in a box by itself.

#### **WARNING**

• Do not throw toner or a container that contains toner (e.g., toner cartridge and developing unit) into an open flame. The hot toner may scatter and cause burns or other damage.

#### **ACAUTION**

- Do not leave toner-related parts (e.g., toner cartridge and developing unit) within easy reach of children. Licking any of these parts or ingesting toner could damage your health.
- Do not store toner-related parts (e.g., toner cartridge and developing unit) near devices susceptible to magnetism, such as precision equipment and data storage devices, otherwise they may malfunction. They could cause these products to malfunction.
- Do not force open the toner-related parts (e.g., toner cartridge and developing unit). If toner tumbles from the toner bottle, take utmost care to avoid inhaling it or even getting skin contact.
- If toner lands on your skin or clothing, wash thoroughly with soap and water.
- If you inhale toner, move to a place with fresh air and gargle with a lot of water repeatedly. Should you get symptoms such as coughing, seek medical advice.
- If you get toner into your eyes, immediately rinse them with running water for over 15 minutes. Seek
  medical advice if irritation persists.
- If you swallow toner, rinse out your mouth and drink a few glasses of water. Seek medical advice if necessary.

bizhub 558/458

# 6.5.3 Replacing a Drum Unit

Unpacking the Drum Unit

bizhub 558/458

- Your service representative will collect your used **Drum Unit**. Put it in a black plastic bag and store it in a box by itself.
- A **Drum Unit** may be damaged due to exposure to light. Do not take it out of a black plastic bag until just before it is to installed.
- After replacing a **Drum Unit**, be sure to clean the **Print Head Glass**. For details on how to clean the **Print Head Glass**, refer to page 6-5.

# 6.5.4 Replacing a Staple Cartridge

6

# Finisher FS-537/Finisher FS-537 SD

# **Tips**

- The figure shows the Finisher FS-537 SD equipped with Punch Kit PK-523, Z Folding Unit ZU-609, and Relay Unit RU-513.
- Do not remove staples that remain in the machine. Otherwise, the stapling function will activate but no sheets will be stapled.

#### NOTICE

Be sure to replace the **Staple Cartridge** after the relevant message has appeared. If a **Staple Cartridge** is removed before the relevant message appears, it may result in a failure.

#### bizhub 558/458

# Finisher FS-536/Finisher FS-536 SD

Chapter 6

# Tips

- The figure shows the Finisher FS-536 SD equipped with Punch Kit PK-520 and Relay Unit RU-513.
- Do not remove staples that remain in the machine. Otherwise, the stapling function will activate but no sheets will be stapled.

#### NOTICE

Be sure to replace the **Staple Cartridge** after the relevant message has appeared. If a **Staple Cartridge** is removed before the relevant message appears, it may result in a failure.

#### Finisher FS-533

#### Tips

- The figure above shows the Finisher FS-533 that is equipped with Punch Kit PK-519.
- Do not remove staples that remain in the machine. Otherwise, the stapling function will activate but no sheets will be stapled.

#### NOTICE

Be sure to replace the **Staple Cartridge** after the relevant message has appeared. If a **Staple Cartridge** is removed before the relevant message appears, it may result in a failure.

# 6.5.5 Replacing a Saddle Staple Cartridge

### Finisher FS-537 SD

#### Tips

- The figure shows the Finisher FS-537 SD equipped with Punch Kit PK-523, Z Folding Unit ZU-609, and Relay Unit RU-513.
- Do not remove staples that remain in the machine. Otherwise, the stapling function will activate but no sheets will be stapled.

#### NOTICE

When moving the **Saddle Stitcher**, be sure to only hold the handle. Otherwise, your hand or finger may get caught in the machine.

Be sure to replace the **Saddle Staple Cartridge** after the relevant message has appeared. If a **Saddle Staple Cartridge** is removed before the relevant message appears, it may result in a failure.

#### Finisher FS-536 SD

- The figure shows the Finisher FS-536 SD equipped with Punch Kit PK-520 and Relay Unit RU-513.
- Do not remove staples that remain in the machine. Otherwise, the stapling function will activate but no sheets will be stapled.

#### NOTICE

When moving the **Saddle Stitcher**, be sure to only hold the handle. Otherwise, your hand or finger may get caught in the machine.

Be sure to replace the **Saddle Staple Cartridge** after the relevant message has appeared. If a **Saddle Staple Cartridge** is removed before the relevant message appears, it may result in a failure.
