

Project Title:

Background and Motivation (What is the subject area? Who would be impacted, and how?)

Problem Statement (What is the specific problem that will be solved?)

Deliverables (What will be the tangible outcomes?...e.g. hardware prototype, experimental data, publications?)

Personnel (What is the preferred team size? Who else is involved and in what context?)

Timing (What is the timeframe and when does the project end? What milestones should be reached by when?)

Pre-Requisites (What prior knowledge, skills, and/or coursework are required or preferred?)

Equipment, Facilities, and Resources (What will be provided? What resources are yet uncertain?)

Credit and/or Compensation (Is the work eligible for academic credit? Does it involve a paid assistantship?)
