

HEP at SJSU

A training program for SJSU students interested in careers in High Energy Physics

Are you interested in dark matter, dark energy, black holes, quantum gravity, string theory, particle physics experiments, or other topics in High Energy Physics? Apply to be a Student Researcher in this program, which includes:

- Full-time, paid summer research
- Part-time paid academic year research with SJSU and SLAC mentors
- Coursework relevant to HEP
- Funds to participate in regional and national conferences
- PhD and/or job application assistance

We're looking for students to begin the program in the 2024-2025 academic year, as part of the SJSU MS degree in Physics. For more information, contact:

Dr. Kassa Betre
